Client Company
100 Other Street
Chicago, IL 60604

Dear Client Contact,

CREtelligent was contracted by you on behalf of Client Company (herein referred to as the “Client”) to conduct a Phase I Environmental Site Assessment (herein referred to as “ESA”) on a Commercial Property located at Main Street, Anytown, CA 93612 (herein referred to as the “subject property”). CREtelligent received written authorization from the Client on February 10, 2023 to perform the ESA Report. This ESA Report was performed in general accordance with the scope and limitations of ASTM E1527-13, ASTM E1527-21, and the Engagement Agreement for Services Proposal SAM-23A-38-001 executed by the Client. Exceptions to or deletions from this protocol are discussed in this report.

We appreciate your business. If you have any questions regarding the attached report, or if we can be of any further service to you, please do not hesitate to contact us at (866) 901-7201.

Sincerely,

Tiffany Frazier
Senior Client Success Manager
Direct Line: (916) 836-5745
t.frazier@CREtelligent.com

Project Summary Table

CREtelligent has performed a Phase I Environmental Site Assessment (ESA) for the property at Main Street, Anytown, CA 93612 (subject property) dated February 23, 2023. This ESA was conducted at the request of Client Company using procedures and practices conforming with the ASTM E1527-21, Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process.

1.0 EXECUTIVE SUMMARY

CREtelligent has performed a Phase I Environmental Site Assessment (ESA) for Client Company on a commercial property at Main Street, Anytown, CA (subject property) dated February 23, 2023. CREtelligent performed the Phase I ESA in conformance with the scope and limitations of ASTM Practice E1527-21 of the subject property. Any exceptions to, or deletions from, this practice are described in [Section 7.0, "About this Environmental Assessment Report"](#) of this report. This assessment evaluated potential environmental liabilities resulting from past and current land uses. The following summary is meant to provide an overview of the report findings. The Client should not draw any conclusions or take any actions without reading this ESA report in its entirety.

The property is currently used as commercial retail space, and the current tenant is Goodwill Industries San Joaquin Valley. Historical property uses included use as agricultural land from approximately 1937 to 1970. Based on the findings of this assessment, the historical use was found to present a significant risk to the environmental integrity of the property.

Adjacent and nearby properties have historically been used as agricultural land followed by commercial retail and are not suspected to have impacted the subject property.

The subject property was identified in the RCRA NON GEN, CERS HAZ, and CUPA FRESNO databases. These listings are related to the subject property's current use as a commercial retail space and the current tenant, Goodwill Industries of San Joaquin Valley.

Regulatory listings in the surrounding area are not suspected to have impacted the subject property. Details regarding regulatory listings are provided in [Section 3.4](#) of this report.

The site reconnaissance did not reveal obvious signs of significant hazardous waste material storage/use, hazardous waste generation, improper disposal, and/or other indications of releases on the subject property. Minor interior and exterior staining was noted at the subject property.

Property Use	Commercial
Number of Parcels	One
Assessor Parcel Number (APN)	497-051-50
Subject Property Acreage	2.030
Number of Buildings	One
Total Building Square Footage	16,055
Current Tenants	Goodwill San Joaquin Valley
Site Assessment Performed By	Dave Mayes
Site Assessment Conducted On	January 29, 2023
First Developed	2004

1.1 Conclusions and Findings

This assessment has revealed the following conditions and risks:

RECOGNIZED ENVIRONMENTAL CONDITION (REC):

This assessment has revealed the following evidence of a REC in connection with the subject property at this time:

- None

HISTORICAL RECOGNIZED ENVIRONMENTAL CONDITION (HREC):

This assessment has revealed the following evidence of a HREC in connection with the subject property at this time:

- None

CONTROLLED RECOGNIZED ENVIRONMENTAL CONDITION (CREC):

This assessment has revealed the following evidence of a CREC in connection with the subject property at this time:

- None

DE MINIMIS CONDITION:

This assessment has revealed the following evidence of De Minimis Condition in connection with the subject property at this time:

- Staining in the docking ramp area for tractor trailers was observed; and
- Drainage pipes, likely for stormwater management, were noted in the docking ramp area for tractor trailers.

BER:

This assessment has revealed the following evidence of a BER in connection with the subject property at this time:

- None

SIGNIFICANT DATA GAP:

This assessment has revealed the following evidence of a significant data gap in connection with the subject property at this time:

- None

1.2 Data Gap

A data gap is defined as the “lack of or inability to obtain information required by this practice despite good faith efforts by the environmental professional to gather such information.”

The following data gaps were encountered during this assessment:

SECTION	SOURCES CONSULTED	DETAILS	SIGNIFICANCE
HISTORICAL			
3.2	Aerial photographs, Sanborn maps, city directories, topographic map, municipal records, and site contact.	Sanborn Fire Insurance Maps were not available for the subject property.	LOW - Not anticipated to be significant, based on information reviewed to date.
INTERVIEWS			
3.3	Current owners and municipal records.	The current owners could not be contacted for an interview.	LOW - Not anticipated to be significant, based on information reviewed to date.
REGULATORY REVIEW			
3.5	FOIA requests submitted to: U.S. EPA, GeoTracker, EnviroStor, Fresno County, and City of Fresno.	A complete response from the City of Clovis has not yet been received.	LOW - Not anticipated to be significant, based on information reviewed to date.

1.3 Recommendations/EP Opinion

Based on the information referenced in this ESA, CREtelligent recommends the following:

- No further assessment is recommended at this time.

1.4 Project Personnel

Per ASTM standard, this report has been prepared with oversight and final review by an Environmental Professional (EP) as defined in §312.10 of 40 Code of Federal Regulations (CFR) Part 312.

I declare that, to the best of my professional knowledge and belief, I meet the definition of EPA-Certified Environmental Professional as defined in §312.10 of 40 Code of Federal Regulations (CFR) Part 312 and we have the specific qualifications based on education, training, and experience to assess a property of the nature, history, and setting of the subject property. We have developed and performed the all appropriate inquiries in general accordance with the standards and practices set forth in 40 CFR Part 312.

Tim Smith
Environmental Professional

The following CREtelligent personnel were directly responsible for the preparation of this report:

Michelle Manning
Project Manager

The resumes of the EP and Project Managers are provided in Appendix-[Consultant Resumes](#).

Figure 1: Subject Property Map

Commercial Property
239 W Shaw Avenue
Clovis, CA 93612

2.0 SUBJECT PROPERTY INFORMATION

The subject property information is based on publicly-available information, information obtained during the site reconnaissance, information provided by the Client, on-line property assessor information, Google Earth, Google Street view, and/or other readily available resources.

2.1 Subject Property General Characteristics

IDENTIFIER	DESCRIPTION OF IDENTIFIED ITEMS
Property Use:	Commercial
Subject Property Address	Main Street, Anytown, CA 93612
Number of Parcels	One
Assessor Parcel Number (APN)	497-051-50
Subject Property Zoning	Unavailable at the time of this report.
Subject Property Acreage	2.030
Number of Buildings	One
Number of Stories Above Grade	Single-story
Basement or Subgrade Areas	No
Total Building Square Footage	16,055
Year of Construction	2004
First Developed	1937
Additional On-site Development	Paved parking lot
Current Owner(s) of Subject Property	Sterling Cooper
Current Tenants	Goodwill

2.2 Subject Property Services and Utilities

The following municipal services and utilities are provided to the subject property and/or the surrounding area.

IDENTIFIER	DESCRIPTION OF IDENTIFIED ITEM
Potable Water Supply	City of Clovis
Sewage Disposal System	City of Clovis
Storm Water	Consists of sheet flow across paved areas to City of Clovis municipal storm sewer system via curbside inlets.
Electricity	PG&E
Natural Gas	PG&E
Heating/Cooling Systems	A roof-mounted HVAC system is present on the subject property.

2.3 Adjacent Property Information

During the site reconnaissance, CREtelligent observed the following land use on properties in the immediate vicinity of the subject property.

ADDRESS	CURRENT USE	CURRENT OCCUPANT(S)
NORTH		
1650 Villa Avenue	Residential	Campus Corral Mobile Home Park
EAST		
1886 Villa Avenue	Commercial	Burger King
1750 Villa Avenue	Commercial	Raceway Express Carwash
SOUTH		
205 W Shaw Avenue	Commercial	Walgreens
263 W Shaw Avenue	Commercial	Sonic Drive-In
285 W Shaw Avenue	Commercial	Boot Barn
WEST		
255 W Shaw Avenue	Commercial	Michaels

3.0 RECORDS REVIEW

The following subsections summarize information obtained through the review of available records and include physical settings, historical use information, environmental database search results, agency file review, and vapor migration.

3.1 Physical Settings

The following section provides a brief summary of the physical settings associated with the subject property and general site vicinity. These settings include information on elevation, the topographic slope of the general site vicinity, a description of general soil type, nearest surface water body, and estimated depth and flow direction of groundwater where known.

PHYSICAL SETTING SOURCES	
TOPOGRAPHY	
Elevation	339 feet above mean sea level (MSL)
Topographic Quad	Clovis, CA
General Slope	South
HYDROLOGY	
Nearest Surface Water Body	An unnamed canal borders the subject property to the north. Mill Ditch lies >3 miles south of the subject property.
Estimated Depth to Groundwater	125 feet bgs, according to nearby GeoTracker LUST case summary.
Estimated Groundwater Flow Direction	To the south, based on topographic contours of the area.
Flood Zone	X-12: Area of Minimal Flood Hazard
GEOLOGIC INFORMATION	
Geologic Units	Q: Quaternary alluvium and marine deposits. Alluvium, lake, playa, and terrace deposits; unconsolidated and semiconsolidated. Mostly nonmarine, but includes marine deposits near the coast.

PHYSICAL SETTING SOURCES	
SOIL	
Soil Name	ArA: Atwater sandy loam, 0 to 3 percent slopes. Soils in this group have low runoff potential when thoroughly wet. Water is transmitted freely through the soil.

Please see [Appendix - Additional Information](#) to review these resources in their entirety.

3.2 Historical Use Information

To establish the history of the subject property and adjacent properties, CREtelligent ordered, reviewed, and interpreted multiple historical resources. These historical resources were provided by CREtelligent's proprietary database and/or third-party sources. These historical resources include but are not limited to the following: aerial photography; sanborn/fire insurance maps; topographic maps; and city directories (where available). CREtelligent reviewed the following historical documents:

HISTORICAL RESOURCE	YEARS REVIEWED
Aerial Photographs	1937, 1946, 1957, 1962, 1972, 1984, 1993, 1998, 2005, 2006, 2009, 2010, 2012, 2014, 2016, 2018, and 2020. The aerial photographs are of varying sizes and clarity.
Topographic Maps	1923, 1946, 1947, 1964, 1972, 1981, 2015, 2018, and 2021.
City Directories	1960, 1965, 1970, 1975, 1980, 1985, 1990, 1995, 2000-2001, 2003, 2008, 2012, 2016, 2020, and 2022.
Other Resource(s)	Google Earth Imagery (2023)

The following historical data gap was identified:

- Sanborn Fire Insurance Maps were not available for review at the time of this report.

However, historical use was identified using city directories, aerial photographs, and topographic maps. Therefore, this data gap is not considered by the EP to be significant at this time.

Based on the available historical resources, the prior uses of the subject property and adjacent properties are summarized in the table below:

Historical Use of Subject Property and Adjacent Properties

YEAR RANGE	SOURCE	DESCRIPTION	RISK
1923	Topo Maps	The subject property and adjacent properties appear to be undeveloped land.	
1937-1970	Aerials Topo Maps City Directories	The subject property and adjacent properties appear to be agricultural land (orchard and row crops). By 1957, structures, likely residential in nature, are present on the subject property and the east-adjacent property. By 1962, multi-tenant residential structures are present on the north-adjacent property. By 1970, the city directory lists Great Western Hardware on one of the south-adjacent properties.	✓
1972-2003	Aerials Topo Maps City Directories	The subject property and adjacent properties no longer appear to be agricultural land. By 1980, the city directory lists The Sound Shop at the subject property, and Shaw Villa Liquors on one of the south-adjacent properties.	
2004-2023	Tax Information Aerials City Directories Topo Maps Google Earth Imagery	The current structure is present on the subject property, and the city directory lists Goodwill Industries at the subject property address. By 2005, the existing structures are present on the south- and west-adjacent properties. By 2012, the existing structures are present on the east-adjacent properties.	

A summary of the concerns specific to the subject property is provided below:

- The subject property was initially developed for agricultural use sometime between 1923 and 1937, redeveloped for residential use sometime between 1970 and 1972, and redeveloped for commercial use in 2004.
- Available historic aerial photographs identify the subject property as part of a large agriculturally farmed property (cropland and orchard land) from as early as 1937 to at least 1970. Agricultural activities are considered environmental interest due to their potential pesticide use. The property was not identified in regulatory databases as storing or utilizing hazardous chemicals of concern; however, environmental record-keeping was not regulated for agricultural use during the time when the subject property was used for agricultural purposes. The EP does not consider this to be a significant data gap or REC to the subject property for the following reasons:
 - The property was developed with a commercial building and parking hardscape by 2004;
 - Therefore, there is no current human exposure potential to subsurface soil.

- The subject property was identified in our review of available regulatory database listings (Goodwill Industries of SJV [2008-2023]). Please see [3.4.1 Subject Property Regulatory Database Review](#) for further discussion.

A summary of our historical review for the adjacent properties is provided below:

- The northern, southern, eastern, and western adjacent properties were initially developed for agricultural use sometime between 1923 and 1937. The north-adjacent property was redeveloped for residential use sometime between 1960 and 1962. The south-adjacent property was redeveloped for commercial use sometime between 1965 and 1970. The west-adjacent property was redeveloped for commercial use sometime between 2003 and 2005. The east-adjacent property was redeveloped for commercial use sometime between 2010 and 2012.
- The west-, south- and east-adjacent properties were identified in our review of available regulatory database listings (Michaels [2003-2023], Walgreens [2008-2023], and Burger King [2012-2023]). Please see [3.4.2 Off-Site Regulatory Database Review](#) for further discussion.

Please see [Appendix - Historical Resources](#) to review these resources in their entirety.

3.3 Interviews

Interviews were conducted with various individuals knowledgeable of the subject property. The interviews were conducted to determine an awareness of any recognized environmentally-related problems or concerns at the subject property. Specific information obtained from the noted individuals appears in the appropriate sections of this report.

The information gained from the interviews conducted by CREtelligent for this ESA were obtained from sources considered reliable and believed to be true and correct. However, CREtelligent has made no independent investigation as to such matters and undertakes no responsibility for the accuracy of these items.

TITLE	COMMENTS
Seller Questionnaire	Completed by Mr. Fred Simon, owner of the subject property since 2012. The seller questionnaire was returned to CREtelligent on January 17, 2023. On the questionnaire, Mr. Simon stated that the subject property has always been used for retail purposes. Mr. Simon had no knowledge regarding environmental citations, environmental permits or previous environmental assessments associated with the subject property.
Current Site Manager, Occupants, or Employees	At the time of the ESA, current site manager, occupants, or employees were not available for interview.
Past Site Manager, Occupants, or Employees	At the time of the ESA, past site manager, occupants, or employees were not available for interview.
State/Local Agency	Interviews with State/Local agencies were summarized in Section 3.5 .
Other	At the time of the ESA, other individuals were not available for interview.

3.4 Environmental Records Review

CREtelligent reviewed regulatory database records provided by a third-party vendor (Appendix [Regulatory Database Record Report](#)). Results specific to the subject property are presented in [Section 3.4.1 Subject Property Regulatory Database Review](#), while the results specific to off-site properties are presented in [Section 3.4.2 Off-Site Regulatory Database Review](#).

3.4.1 Subject Property Regulatory Database Review

The results of the regulatory database search were reviewed by the environmental professional specific to the subject property as well as "orphan or non-plottable" sites which may contain findings specific to the subject property. If warranted, additional review of available regulatory files, on-line information, and/or client provided information is additionally presented to provide an environmental professional opinion on the potential environmental risk associated with the identified regulatory finding. The following records were identified on the subject property.

DATABASE	SITE NAME	ADDRESS
RCRA NON GEN, CERS HAZ, CUPA FRESNO	GOODWILL INDUSTRIES OF SAN JOAQUIN VALLEY INC SITE #20	239 W SHAW AVENUE, CLOVIS, CA 93712
<p>The regulatory database report identified the subject property (Goodwill Industries of SJV) as a Resource Conservation and Recovery Act (RCRA) non-generator (NON GEN) registered in 2020 and operating under EPA ID CAL000456980. A hazardous waste generator is any person or site whose processes and actions create hazardous waste. Non-Generators do not presently generate hazardous waste. The regulatory database report also identified the subject property as subject to environmental regulation by the California Environmental Protection Agency (CalEPA) and as being below the hazardous material reporting quantity for the Certified Unified Program Agency (CUPA) programs in Fresno County. No records of violation were associated with the subject property. The above conditions, as interpreted by the EP, do not appear to represent a significant data gap or REC to the subject property at this time.</p>		

3.4.2 Off-Site Regulatory Database Review

CREtelligent has reviewed the findings of the ASTM regulatory database search. This information was screened for potential environmental relevance. Sites/listings of greatest significant are discussed in the table below.

Properties identified in the regulatory database search but not discussed in further detail were not identified as an increased environmental risk to the subject property for one or more of the following reasons:

- a) Site(s) only hold an operating permit with no documented violations and/or releases;
- b) Site(s) have been granted “No Further Action” by applicable regulatory agency and/or Corrective Action is on-going under the guidance of applicable regulatory agency and/or subject property was not identified as a responsible party, contributor, or off-site impact;
- c) Site(s) had no documentation indicating they impacted the subject property's soil, groundwater, and/or vapor media;
- d) Site(s) distance and/or topographic position relative to the subject property reduces the level of potential risk associated with the site(s), and/or
- e) RCRA TSD facilities reviewed and identified to NOT be hazardous waste generators.

The following records of greatest significance were identified on adjacent and/or surrounding properties:

DATABASE	SITE NAME	ADDRESS	DIST. (FT) / DIR.	ELEV. DIFF. (FT)	RISK
CUPA FRESNO, FINDS/FRS, CERS HAZ, RCRA NON GEN, HAZ GEN	MICHAELS STORE #2121	255 W SHAW AVENUE, CLOVIS, CA 93612	>60/NW (Adjoining)	1.0	
<p>The regulatory database report identified this site as subject to environmental regulation by CalEPA and as being below the hazardous material reporting quantity for the CUPA programs in Fresno County. This site was identified as a RCRA NON GEN site registered in 2012 and operating under EPA ID CAL000371349. A hazardous waste generator is any person or site whose processes and actions create hazardous waste. Non-Generators do not presently generate hazardous waste. This site generates very small quantities of D001 (ignitable) and D002 (corrosive) hazardous waste (a total of 0.015 tons in 2022, 0.085 tons in 2021, 0.0025 tons in 2020, 0.0095 tons in 2019, 0.0045 tons in 2018, 0.019 tons in 2017, 0.0255 tons in 2016, 0.0795 tons in 2015, 0.062 tons in 2014, 0.077 tons in 2013, and 0.038 tons in 2012, respectively). On July 18, 2017, a violation was noted for this site for failure to keep a copy of each properly signed manifest for at least three years, with a return to compliance date of August 27, 2017.</p>					

DATABASE	SITE NAME	ADDRESS	DIST. (FT) / DIR.	ELEV. DIFF. (FT)	RISK
<p>Further, per review of topographical maps, this site resides downgradient from the subject property, thus it is assumed that groundwater flow would likely migrate away from the subject property, which mitigates potential impacts away from the subject property in the event this site had a release affecting groundwater media.</p> <p>Therefore, the above conditions, as interpreted by the EP, do not appear to represent a significant data gap or REC to the subject property at this time.</p>					
CUPA FRESNO, FINDS/FRS, RCRA LQG, CERS HAZ, RCRA VSQG, HAZ GEN (2)	WALGREENS #7830	205 W SHAW AVENUE, CLOVIS, CA 93612	>75/SSE (Adjacent)	0.0	
<p>The regulatory database report identified this site as subject to environmental regulation by CalEPA and as being below the hazardous material reporting quantity for the CUPA programs in Fresno County. This site was registered as a RCRA large quantity generator (LQG) in 2014 operating under EPA ID CAL000322998 and generating a variety of U-, P-, and D-listed wastes. Large Quantity Generators (LQGs) generate 1,000 kilograms per month or more of hazardous waste or more than one kilogram per month of acutely hazardous waste. This ID is no longer active.</p> <p>This site was registered as a very small quantity generator (VSQG) in 2014 operating under active EPA ID CAR000316562. VSQGs generate 100 kilogram or less of hazardous waste per month. The following hazardous wastes were reported as generated in very small quantities:</p> <ul style="list-style-type: none"> • U205 (Selenium Sulfide); • U150 (L-Phenylalanine); • U058 (Cyclophosphamide); • P001 (Warfarin); • D002 (Chloroform); • D007 (Chromium) • D002 (Corrosive waste); • U188 (PHEOL); • U129 (Cyclohexane); • P075 (Nicotine); • D0254 (M-Cresol); • D010 (Selenium); • D005 (Barium); and • D001 (Ignitable waste). <p>No records of violation were associated with this site.</p> <p>Further, per review of topographical maps, this site resides downgradient from the subject property, thus it is assumed that groundwater flow would likely migrate away from the subject property, which mitigates potential impacts away from the subject property in the event this site had a release affecting groundwater media.</p>					

DATABASE	SITE NAME	ADDRESS	DIST. (FT) / DIR.	ELEV. DIFF. (FT)	RISK
Therefore, the above conditions, as interpreted by the EP, do not appear to represent a significant data gap or REC to the subject property at this time.					
EMISSIONS (2)	BURGER KING #17156	1886 VILLA AVENUE, CLOVIS, CA 93612	>240/ESE (Adjacent)	0.0	
<p>The regulatory database report identified this site on a list of toxic pollutant emissions facilities, which is a list of criteria and toxic pollutant emissions data for facilities in California made available by the California Environmental Protection Agency - Air Resources Board (ARB). Risk data may be based on previous inventory submittals. The toxics data are submitted to the ARB by the local air districts as a requirement of the Air Toxics "Hot Spots" Program. This program requires emission inventory updates every four years. No records of violation were associated with this site.</p> <p>Further, per review of topographical maps, this site resides downgradient from the subject property, thus it is assumed that groundwater flow would likely migrate away from the subject property, which mitigates potential impacts away from the subject property in the event this site had a release affecting groundwater media.</p> <p>Therefore, the above conditions, as interpreted by the EP, do not appear to represent a significant data gap or REC to the subject property at this time.</p>					

3.5 Agency Records Review

The purpose of the additional regulatory agency file review is to obtain sufficient information to assist CREtelligent personnel in determining if a REC, HREC, CREC, BER, or a De Minimis condition exists at the subject property in connection with the identified database listings. Pertinent regulatory files and/or records received by the date of this report have been added into [3.4 Environmental Records Review](#). The following additional environmental records were reviewed to supplement the standard environmental record database search.

State and Federal Agencies

DATE REQUESTED	RESOURCE	COMMENTS
01/19/23	United States Environmental Protection Agency	Files were available for the subject property. See Appendix Regulatory Agency Records.
01/19/23	GeoTracker, Water Board's Data Management System	No sites were identified on or near the subject property.
01/19/23	EnviroStor, Department of Toxic Substances Control's Data Management System	No sites were identified on or near the subject property.

Local Agencies

DATE REQUESTED	RESOURCE	COMMENTS
01/19/23	County of Fresno Public Records Request	According to the online database search, no records were on file for the subject property.
01/19/23	County of Fresno Department of Public Health Document Portal	According to the online database search, no records were on file for the subject property.
01/19/23	City of Fresno Public Records Request	A response was received and no records were on file for the subject property.

- CREtelligent requested regulatory files for the subject property and/or off site concerns; however, as of the date of this report, limited agency response has been received. Based on the quality of information obtained from other sources, the EP does not consider the lack information from regulatory agencies a significant data gap.

Please see Appendix-[Regulatory Agency Records](#).

3.6 Summary of Previous Investigations

No copies of previous investigations or other environmentally-related information about the property was provided by the Client. Based on the quality of information obtained from other sources, this is not considered a significant data gap.

Please see [Appendix - Client Provided Information](#).

3.7 Vapor Migration

Indoor air quality concerns are generally excluded from the scope of ASTM E1527-21 and this assessment. The migration of volatile compounds through either volatilization of dissolved groundwater plumes or vapor advection and dispersion from relatively nearby sources (on- or off-site) caused by a documented release of hazardous substances or petroleum products to the subsurface environment can represent a vapor intrusion concern or REC to the subject property in certain conditions.

For the purposes of this assessment, the potential for vapor migration that may represent a REC to the subject property was evaluated by the environmental professional using a limited screening method based on the type of contaminant, location of contaminant (or release) with relation to the subject property, documented extent of chemicals in subsurface, and groundwater flow direction. In addition, screening tools created by regulatory agencies (EPA and various state agencies) may be used to evaluate the significance of a release with respect to the vapor migration and/or vapor intrusion potential concerns. This screening approach is not to be confused with a human health risk assessment, but rather a conservative approach at assessing if a possible risk exists. Please see [3.4.1 Subject Property Regulatory Database Review](#), which summarizes the findings of this vapor assessment where necessary.

4.0 USER PROVIDED INFORMATION

According to ASTM E1527-21 and the EPA Standards and Practices for All Appropriate Inquiries (40 CFR Part 312), certain items should be researched by the prospective landowner or grantee, and the results of such inquiries provided to the Environmental Professional preparing the ESA for his/her consideration.

The table below outlines information that CREtelligent requested in our effort to identify or alleviate possible RECs in connection with the subject property. Information provided by the User (if any) is summarized below the table.

USER PROVIDED INFORMATION	NOT PROVIDED BY USER	PROVIDED BY USER

Valuation Reduction for Environmental Issues	✓	
Prior Environmental Reports	✓	
Other	✓	

- The user questionnaire was completed by Fred Simon, the current owner of the subject property, dated January 17, 2023.
- The subject property was identified as a commercial building currently occupied by Goodwill Industries. No change of property use is anticipated at this time. No ASTs, USTs, environmental permits, or previous environmental studies associated with the subject property were identified in the questionnaire.

5.0 FIELD RECONNAISSANCE

A visual review of the subject property was completed to document site conditions and identify recognized environmental conditions. The reconnaissance was completed on January 29, 2023.

The site reconnaissance included a systematic evaluation of the property exterior was conducted in a manner consistent with the ASTM standard. Property interior was comprehensively assessed with exception of the items in the table below. Photographs are provided in the [Subject Property Photographs](#) of this report.

5.1 Subject Property Observations & Limitations

The following lists the areas of the subject property that were or were not accessible during our site visit.

Site Escort:	Jack Black (last name not provided)
What locations on the subject property WERE NOT observed/inspected to evaluate the environmental condition of the subject property? (not accessible)	The following locations on the subject property were not available for inspection: Three dressing rooms, one conference room, and the building roof.
Were there any discrepancies noted in property boundary? Different from the image provided?	No discrepancies were noted in the property boundaries.
Were adjacent properties observed from the subject property premises? Were any items of environmental concern identified?	All adjacent properties were observed from the subject property premises, and no items of environmental concern were identified.
Limiting conditions to the site visit:	Yes
If yes, please describe:	Although numerous requests were made, a site contact interview was not conducted. Three dressing rooms, one conference room, and the roof were inaccessible at the time of the site reconnaissance. The roof was not readily accessible and therefore was not inspected. The roof was visually assessed from the ground level where possible.

5.2 Observations Checklist

The following are the observations that were collected specifically to the ASTM inspection criteria for "*Interior and Exterior Observations*".

ASTM OBSERVATIONS	OBSERVED	RISK
Hazardous Substances and Petroleum Products in Connection with Current Business Type	No	
Hazardous Substance and Petroleum Product Containers Not in Connection with Current Business Type	No	
Storage Tanks	No	
Strong, Pungent, or Noxious Odors	No	
Standing Surface Water and Pools or Sumps Containing Liquids Likely to be Hazardous Substances or Petroleum Products	No	
Drums, Totes, and Intermediate Bulk Containers	No	
Unidentified Substance Containers	No	
PCB Containing Items	Yes	
Heating/Cooling	Yes	
Stains or Corrosion on Floors, Walls, or Ceilings (Interior)	Yes	
Stained Soil or Pavement (Exterior)	Yes	
Drains, Sumps, and Wastewater	Yes	
Pits, Ponds, or Lagoons	No	
Stressed Vegetation (other than insufficient water)	No	
Solid Waste (e.g., construction debris, demolition debris, or other solid waste disposal, or mounds or depressions suggesting trash or other solid waste disposal) Not trash dumpsters	No	
Wells (e.g, dry wells, irrigation wells, injection wells, abandoned wells, or other wells)	No	
Septic Systems (on-site septic systems or cesspools)	No	

Observations Summary

ASTM OBSERVATIONS	COMMENTS
PCB Containing Items	Three pad-mounted transformers were observed on the subject property. No signs of leakage or staining in connection with the transformers was observed.
Heating/Cooling	A roof-mounted HVAC system is present on the subject property.
Stains or Corrosion on Floors, Walls, or Ceilings (Interior)	Minor staining was noted on the dressing room floor and on one ceiling tile in the employee kitchen/locker room area.
Stained Soil or Pavement (Exterior)	Significantly stained pavement was observed in the docking ramp area for tractor trailers. This is considered a De Minimis condition and is not considered to be a significant environmental concern.
Drains, Sumps, and Wastewater	Drainage pipes, likely for stormwater management, were noted in the docking ramp area for tractor trailers. Based upon the staining noted above this is considered a De Minimis condition and is not considered a significant environmental concern.
<i>Please see Appendix-Subject Property Photographs for additional perspective.</i>	

6.0 ABOUT THIS ENVIRONMENTAL SITE ASSESSMENT REPORT

On February 10, 2023, Client Contact of Client Company retained CREtelligent to conduct a Phase I Environmental Site Assessment of the property at Main Street, Anytown, CA, 93612 (herein, the “subject property”). This assessment was performed in general conformance with ASTM E1527-21, “Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process,” following all prescribed methodologies and protocols detailed in this Practice.

Any environmental Site Assessment that meets or exceeds the above-described methods is presumed valid under all applicable standards. Any exceptions to, or deletions from, this Practice are described in this report.

This report is valid for 180 days beginning February 23, 2023.

6.1 Purpose

The purpose of this ESA is to identify existing or potential Recognized Environmental Conditions (as defined by ASTM Standard Practice E1527-21) affecting the subject property that: 1) constitute or may result in a material violation or a potential material violation of any applicable environmental law; 2) impose any material constraints on the operation of the subject property or require a material change in the use thereof; 3) require clean-up, remedial action or other response with respect to Hazardous Substances or Petroleum Products on or affecting the subject property under any applicable environmental law; 4) may affect the value of the subject property; and 5) may require specific actions to be performed with regard to such conditions and circumstances. The information contained in this ESA Report intended to be used by the Client to: 1) evaluate its legal and financial liabilities for transactions related to foreclosure, purchase, sale, loan origination, loan workout or seller financing; 2) evaluate the subject property’s overall development potential, the associated market value and the impact of applicable laws restricting financial and other types of assistance for the future development of the subject property; and/or 3) determine whether specific actions are required to be performed prior to the foreclosure, purchase, sale, loan origination, loan workout or seller financing of the subject property.

This ESA is thus intended to assist the user in satisfying “one of the requirements to qualify for the innocent landowner, contiguous property owner, or bona fide prospective purchaser limitations (commonly known as landowner liability protections)” on CERCLA Liability as defined at 42 U.S.C. §9601 (35) (B). In order to maintain landowner liability protections, the user also has a “continuing obligation to not interfere with activity and use limitations associated with the property,” must take “reasonable steps to prevent releases,” and must “comply with legal release reporting obligations” (ASTM E1527-21).

This investigation also meets the requirements of the ASTM Standard Practice E1527-13.

6.2 Scope of Work

In accordance with ASTM Practice E1527-21, CREtelligent's assessment activities included: 1) a review of available historical resources (e.g. historical aerial photographs, city directories, and fire insurance maps; 2) a review Federal, State, County, and Local regulatory agency records; 3) a review of a regulatory database report provided by a third-party vendor; 4) onsite reconnaissance of the subject property and adjacent/adjoining properties; and 5) interviews, when reasonably possible, with onsite personnel and the subject property owner(s).

During the site visit, a CREtelligent representative conducted site reconnaissance to assess the possible presence of petroleum products and/or other hazardous materials on the subject property and made every reasonable effort to interview site personnel about current and past subject property use.

6.3 Report Reliance

In accordance with the terms of CREtelligent's Client Services Agreement, which governs the nature, scope, and purpose of this ESA, all reports, both verbal and written, are for the sole benefit of Client Company, its affiliates, successors and assigns, as well as lending institutions involved in securing financing for the subject property. Other parties may not rely on this report without written consent from CREtelligent.

Third parties coming into possession of all or part of this report, whether verbal or written, must obtain written permission from CREtelligent for report reliance. Specific conditions and fees may apply to third-party reliance letters. In the absence of a written agreement with CREtelligent, no third party shall have any rights of recourse or recovery whatsoever under any course of action against CREtelligent, its officers, employees, vendors, successors or assigns. Any such unauthorized user shall be responsible to protect, indemnify and hold CREtelligent as well as Client Company and their respective officers, employees, vendors, successors, and assigns harmless from any and all claims, damages, losses, liabilities, expenses (including reasonable attorneys' fees) and costs attributable to such report reliance. Unauthorized use of this report shall constitute acceptance of and commitment to these responsibilities, which shall be irrevocable and shall apply regardless of the cause of action or legal theory pled or asserted. Additional legal penalties may apply for unauthorized use of this report.

All facsimile transmissions, accompanying documents, and signatures shall be treated as original documents and shall bind and inure the parties involved in this agreement.

6.4 Significant Assumptions

While compiling this report, CREtelligent has assumed the veracity of sources of information widely considered within the industry to be authoritative, true, and correct. Nevertheless, CREtelligent has conducted no independent survey of the subject property nor made any independent investigation verifying the veracity of its sources. CREtelligent assumes no responsibility for the accuracy of these sources. All descriptions of dimensions, capacities, quantities, distances, historical site use, and ownership history information gathered from these sources are provided to assist the Client in visualizing the property and evaluating its likely exposure to environmental risk.

Further, it is assumed that all environmental site assessments contain data gaps. Data gaps that may be filled in by reasonable inference or that are unlikely to have a material effect on the environmental health of a property are considered insignificant and have been identified as such throughout this report. Significant data gaps, such as the current disposition of an environmental cleanup action or the number of hazardous materials used, stored, and/or hazardous waste generated on the subject property, are also identified and discussed. Significant data gaps may result in a recommendation for further assessment.

6.5 Limitations

CREtelligent warrants that the findings and conclusions contained herein were accomplished in accordance with the methodologies set forth in ASTM Practice E1527-21 at “Scope of Work.” These methodologies are described as representing good commercial and customary practice for conducting an ESA of a property for the purpose of identifying recognized environmental conditions. However, even with the proper application of these methodologies, conditions may exist on the subject property that could not be identified within the scope of the assessment or which were not reasonably identifiable from available information. Further, the conclusions and findings set forth in this report are strictly limited in time to the date of the evaluations. The conclusions presented in the report are based solely on the services described therein, and not on scientific tasks or procedures beyond the scope of agreed-upon services or the time and budgeting restraints imposed by the Client. CREtelligent makes no other warranty, either expressed or implied.

Some of the information provided in this report is based upon personal interviews, and research of available documents, records, and maps held by the appropriate government and private agencies. This report is therefore subject to the limitations of historical documentation, availability, and accuracy of pertinent records, and the personal recollections of those interviewed.

ASTM Practice E1527-21 does not address requirements of any state or local laws or of any federal laws other than the all-appropriate inquiry provisions of the landowner liability protections. Further, this report does not intend to address all possible safety concerns, if any, associated with the subject property. While CREtelligent may comment on such matters, this report may not be construed as or used to certify that conditions on the subject property do not pose safety or health risks to its occupants or their visitors.

6.6 Limiting Conditions

No ESA can wholly eliminate uncertainty about whether environmental concerns affect the subject property. This report, therefore, is intended to reduce rather than eliminate uncertainty.

The performance of this ESA does not, in and of itself, meet the eligibility requirements qualifying landowners for certain liability protections set forth in 40 Code of Federal Regulations (CFR), Part 312, and authorized under the CERCLA.

Conditions may exist which were not identified as a result of our site reconnaissance or review of available historical and regulatory resources which might otherwise impact our conclusions concerning the condition of the subject property. Any conditions discovered or revealed which were not identified during the completion of this assessment should be reported to CREtelligent upon discovery and may impact the conclusions and recommendations of this Report.

CREtelligent utilized limited information concerning regulatory compliance in the preparation of this ESA report; however, this report is not intended as a compliance audit and may not be assumed to be, relied upon, or otherwise utilized as evidence of regulatory compliance.

In addition, the findings and conclusions expressed in this report are subject to all the limitations inherent to the methodologies prescribed in ASTM Practice E1527-21. Specific limitations, such as the unavailability of owner contact information, responses to FOIA requests not made available within agreed-upon service deadlines, areas inaccessible to the CREtelligent inspector at the time of site reconnaissance, etc. are noted and their impact discussed in the appropriate sections of this report.

6.7 Limitations of Liability

CREtelligent's liability, if any, for any claim, costs, loss or damage resulting from CREtelligent's negligence, if any, relating to this agreement or the work performed pursuant hereto shall not exceed the amount of the payment(s) actually received by CREtelligent hereunder; provided, however, CREtelligent's liability, if any, for claims involving "professional liability", "general liability" or "pollution liability" shall not exceed the amount of insurance maintained by CREtelligent. CREtelligent currently maintains (i) professional liability insurance, general liability insurance, and pollution liability insurance in the amount of \$1,000,000 and an umbrella liability policy in the amount of \$2,000,000.

7.0 TERMS AND ACRONYMS

Terms and Acronyms	Description
Adjacent Property	Any real property or properties the border of which is contiguous or partially contiguous with that of the subject property, or that would be contiguous or partially contiguous with that of the property but for a street, road, or other public thoroughfare separating them.
AST	Aboveground Storage Tank
ASTM	American Society for Testing and Materials
AUL	Activity and Use Limitation
BER	A Business Environmental Risk (BER), as defined by ASTM E1527-21, is a risk which can have a material environmental or environmentally-driven impact on the business associated with the current or planned use of a parcel of commercial real estate, not necessarily limited to those environmental issues required to be investigated in this practice.
BGS	Below Ground Surface
BTEX	Benzene, Toluene, Ethylbenzene, and Xylenes
CDL	Clandestine Drug Lab
CERCLIS	Comprehensive Environmental Response Compensation and Liability Information System
COC	Contaminant of Concern
CREC	A Controlled Recognized Environmental Condition, as defined in ASTM E1527-21, is a REC resulting from a past release of hazardous substances or petroleum products that has been addressed to the satisfaction of the applicable regulatory authority (for example, as evidenced by issuance of a No Further Action letter or equivalent, or meeting risk-based criteria established by regulatory authority), with hazardous substances or petroleum products allowed to remain in place subject to the implementation of required controls (for example, property use restrictions, activity and use limitations, institutional controls, or engineering controls).
Data Gap	A data gap, as defined in ASTM E1527-21, is the “lack of or inability to obtain information required by this practice despite good faith efforts by the environmental professional to gather such information.”
De Minimis Condition	A de minimis condition, as defined in ASTM E1527-21, is a condition that generally does not present a threat to human health or the environment and that generally would not be the subject of an enforcement action if brought to the attention of appropriate governmental agencies. Conditions determined to be De Minimis conditions are not recognized environmental conditions nor controlled recognized environmental conditions.
ERNS	Emergency Response Notification System
FED ENG/FED INST	Federal Engineering Controls/Federal Institutional Controls
FOIA	Freedom of Information Act
FUDS	Formerly Used Defense Sites

HREC	A historical REC (HREC), as defined in ASTM E1527-21, is a past release of any hazardous substances or petroleum products that has occurred in connection with the property and has been addressed to the satisfaction of the applicable regulatory authority, without subjecting the property to any required controls (for example, property use restrictions, activity and use limitations, institutional controls, or engineering controls).
ICIS	Integrated Compliance Information System
LST	Leaking Storage Tank
LPST/LUST	Leaking Petroleum Storage Tank Leaking Underground Storage Tank
LUR	Land Use Restriction
MSL	Mean Sea Level
NFA/NFRA/NFRAP	No Further Action/No Further Remedial Action/No Further Remedial Action Planned
ND	None Detected
NOV	Notice of Violation
NPL	National Priorities List (aka Superfund)
PCB	Polychlorinated Biphenyls
PCE/PERC	Perchloroethylene, Tetrachloroethylene, Tetrachloroethene
PRP	Potentially Responsible Parties List
PST	Petroleum Storage Tank
RCRA	Resource Conservation and Recovery Act
RCRA CESQG	RCRA Conditionally Exempt Small Quantity Generator
RCRA CORRACTS	RCRA Corrective Action
RCRA LQG	RCRA Large Quantity Generators List
RCRA NON GEN	RCRA Non-Generator
RCRA SQG	RCRA Small Quantity Generators List
RCRA TSD	RCRA non-CORRACTS TSD Facilities
REC	A Recognized Environmental Condition, as defined in ASTM E1527-21, is the presence or likely presence of any hazardous substances or petroleum products in, on, or at a property: (1) due to any release to the environment; (2) under conditions indicative of a release to the environment, or (3) under conditions that pose a material threat of a future release to the environment.
SEMS	Superfund Enterprise Management System
SUPERFUND ROD	Superfund Record of Decision
SWF/LF	Solid Waste Facility/Landfill
TRIS	Toxic Release Inventory Program
UST	Underground Storage Tank
VCP	Voluntary Cleanup Program
VOC/HVOC	Volatile Organic Compound/Halogenated Volatile Organic Compound
USGS	United States Geological Survey

Question	Answer			Description/Attachments Provided?
	Yes	No	Unk	
Are there any previous environmental site assessment reports or other reports associated with the subject property?		✓		
Are there any permits associated with the site's operations (including but not limited to solid waste disposal, hazardous waste disposal, wastewater discharge, NPDES, or underground injection)?		✓		
Are there registration documents for any above- or underground storage tanks on the subject property?		✓		
Are there any environmental citations, claims, complaints, violations or notices of non-compliance issued by any environmental agency?		✓		
Has there been any documented or undocumented spills or chemical releases at the subject property?		✓		
Has there historically been or are there currently environmental cleanup activities on the subject property?		✓		
Do you know or have any reason to suspect that the site may have been previously contaminated?		✓		
Are there any Deed or Land Use Restrictions on the property?		✓		
Does the property have any environmental liens or governmental notification relating to past or current violations of environmental laws with respect to the property?		✓		
What is the purpose of this loan, and the future use of the property?		✓		
Is there a site map, emergency evacuation map, and/or rent roll available?		✓		Single tenant

FRESNO CA City Public Records Request::R030408-011923:: R030408-011923

1 message

Fresno Public Records Center <fresnoc@govqa.us>
To: "LilyOlliver123@gmail.com" <LilyOlliver123@gmail.com>

Thu, Jan 19, 2023 at 4:18 PM

Dear Lily Olliver:

Thank you for your interest in public records of City of Fresno. Your request has been received and is being processed in accordance with the California Public Records Act (CPRA). Your request was received on 1/19/2023 and given the reference number R030408-011923 for tracking purposes. Your request mentioned:

My company has been engaged to perform an environmental site assessment of commercial land located at 239 W Shaw Ave, Clovis, CA 93612. As part of our due diligence and in accordance with ASTM production standards, we're requesting any documents that may exist regarding permits (tanks, dry-cleaning, printing, fuel dispensing, hazardous waste), tanks, spills, releases of hazardous materials, or known contaminated sites on our subject property.

If reassigned to the City Attorney's Office for processing, the City Attorney's Office will coordinate with other City Departments regarding the collection and review process of responsive records. Within 10 days of receipt of your request, you will be contacted about the availability of the records in question, unless the response time is extended by written notification to you. PLEASE NOTE: The CPRA does not require a governmental body to create new records to respond to a request, do legal research, or answer questions that seek information only and do not seek production of an existing public record.

You can monitor the progress of your request at the link below. You will receive an email if an extension of time is required and once your request has been completed.

If you have any questions or need additional information, please feel free to contact the City Attorney's Office at 559-621-7500.

Again, thank you for using the Public Records Center.

City of Fresno

RE: PUBLIC RECORDS REQUEST of January 19, 2023, Reference # R030408-011923.

Dear Lily Olliver,

The City of Fresno (City) received your public information request for records under the California Public Records Act (Gov. Code, § 7920.000 et seq.) on January 19, 2023. Your request seeks:

My company has been engaged to perform an environmental site assessment of commercial land located at [239 W Shaw Ave, Clovis, CA 93612](#). As part of our due diligence and in accordance with ASTM production standards, we're requesting any documents that may exist regarding permits (tanks, dry-cleaning, printing, fuel dispensing, hazardous waste), tanks, spills, releases of hazardous materials, or known contaminated sites on our subject property.

The City responds as follows:

The City of Fresno has reviewed its files and has determined there are no records responsive to your request

- Records pertaining to underground storage tanks are not in the custody and/or control of the City. You may contact the Fresno County Division of Environmental Health at (559)445-3271 regarding underground storage tank records.

Please feel free to contact the Fresno City Attorney's Office at 559-621-7500 if you have any questions.

Very truly yours,

Yvette Aguilar
Paralegal
for
TRAVIS R. STOKES
Assistant City Attorney
City of Fresno

Notice: IMPORTANT LIMITATIONS and YOUR LIABILITY

Reliance on information in Report: This report DOES NOT replace a full Phase I Environmental Site Assessment but is solely intended to be used as database review of environmental records.

License for use of information in Report: No page of this report can be used without this cover page, this notice and the project property identifier. The information in Report(s) may not be modified or re-sold.

Your Liability for misuse: Using this Service and/or its reports in a manner contrary to this Notice or your agreement will be in breach of copyright and contract and ERIS may obtain damages for such mis-use, including damages caused to third parties, and gives ERIS the right to terminate your account, rescind your license to any previous reports and to bar you from future use of the Service.

No warranty of Accuracy or Liability for ERIS: The information contained in this report has been produced by ERIS Information Inc. ("ERIS") using various sources of information, including information provided by Federal and State government departments. The report applies only to the address and up to the date specified on the cover of this report, and any alterations or deviation from this description will require a new report. This report and the data contained herein does not purport to be and does not constitute a guarantee of the accuracy of the information contained herein and does not constitute a legal opinion nor medical advice. Although ERIS has endeavored to present you with information that is accurate, ERIS disclaims, any and all liability for any errors, omissions, or inaccuracies in such information and data, whether attributable to inadvertence, negligence or otherwise, and for any consequences arising therefrom. Liability on the part of ERIS is limited to the monetary value paid for this report.

Trademark and Copyright: You may not use the ERIS trademarks or attribute any work to ERIS other than as outlined above. This Service and Report(s) are protected by copyright owned by ERIS Information Inc. Copyright in data used in the Service or Report(s) (the "Data") is owned by ERIS or its licensors. The Service, Report(s) and Data may not be copied or reproduced in whole or in any substantial part without prior written consent of ERIS.

Waste Code Details

Hazardous Waste Code:	U205
Waste Code Description:	SELENIUM SULFIDE (OR) SELENIUM SULFIDE SES2 (R,T)
Hazardous Waste Code:	U150
Waste Code Description:	L-PHENYLALANINE, 4-[BIS(2-CHLOROETHYL)AMINO]- (OR) MELPHALAN
Hazardous Waste Code:	U058
Waste Code Description:	2H-1,3,2-OXAZAPHOSPHORIN-2-AMINE, N,N-BIS(2-CHLOROETHYL)TETRAHYDRO-, 2-OXIDE (OR) CYCLOPHOSPHAMIDE
Hazardous Waste Code:	P001
Waste Code Description:	2H-1-BENZOPYRAN-2-ONE, 4-HYDROXY-3-(3-OXO-1-PHENYLBUTYL)-, & SALTS, WHEN PRESENT AT CONCENTRATIONS GREATER THAN 0.3% (OR) WARFARIN, & SALTS, WHEN PRESENT AT CONCENTRATIONS GREATER THAN 0.3%
Hazardous Waste Code:	D022
Waste Code Description:	CHLOROFORM
Hazardous Waste Code:	D007
Waste Code Description:	CHROMIUM
Hazardous Waste Code:	D002
Waste Code Description:	CORROSIVE WASTE
Hazardous Waste Code:	331
Waste Code Description:	Off-specification, aged, or surplus organics
Hazardous Waste Code:	131
Waste Code Description:	Aqueous solution (2 < pH < 12.5) containing reactive anions (azide, bromate, chlorate, cyanide, fluoride, hypochlorite, nitrite, perchlorate, and sulfide anions)
Hazardous Waste Code:	122
Waste Code Description:	Alkaline solution without metals (pH > 12.5)
Hazardous Waste Code:	U188
Waste Code Description:	PHENOL

Citation: HSC 6.7 25284.2 - California Health and Safety Code, Chapter 6.7, Section(s) 25284.2
Violation Notes:

Returned to compliance on 05/24/2018. MC was due May 3

Violation Description:

Failure to test the spill bucket annually.

Map Key	Number of Records	Direction	Distance (mi/ft)	Elev/Diff (ft)	Site	DB
---------	-------------------	-----------	------------------	----------------	------	----

Violations

Violation Date: 05/24/2018
Violation Program: UST
Citation: 23 CCR 16 2715(i) - California Code of Regulations, Title 23, Chapter 16, Section(s) 2715(i)
Violation Notes:

Returned to compliance on 05/24/2018. MC was due May 3

Violation Description:

Failure to have a properly qualified service technician test leak detection equipment as required every 12 months (vapor, pressure, hydrostatic (VPH) system, sensors, line-leak detectors (LLD), automatic tank gauge (ATG), etc.).

Violations

Violation Date: 05/24/2018
Violation Program: UST
Citation: HSC 6.7 25292.1(a) - California Health and Safety Code, Chapter 6.7, Section(s) 25292.1(a)
Violation Notes:

Returned to compliance on 06/23/2018. Dispenser 5/6 has a leak & floats & chains not functioning. Most of the floats & chains had to be adjusted

Violation Description:

Failure to operate the UST system to prevent unauthorized releases including leaks, spills, and/or overfills.

Violations

Violation Date: 04/21/2022
Violation Program: UST
Citation: 23 CCR 16 2636(f)(4) - California Code of Regulations, Title 23, Chapter 16, Section(s) 2636(f)(4)
Violation Notes:

26. VIOLATION: Failure to meet one or more of the following monitoring requirements in lieu of the requirement to be tightness tested every 12 months: The monitoring system maintains all product piping outside the dispenser to be fail-safe and shut down the pump when a leak is detected. The monitoring system shuts down the pump or stops flow when a leak is detected in the under dispenser containment (UDC). (23 CCR 16 2636(f)(4))
 OBSERVATION: Owner/Operator, in lieu of annual tightness testing, failed to maintain all product piping, outside the dispenser, to be fail-safe and capable of shutting down the pump when a leak is detected and a monitoring system capable of shutting down the pump or stops the flow (flow restriction) when a leak is detected in the under dispenser containment. CORRECTIVE ACTION: Maintain all product piping outside the dispenser to be fail-safe and shut down the pump when a leak is detected and the monitoring system shuts down the pump or stops the flow (flow

Violation Description:

Failure to meet one or more of the following monitoring requirements in lieu of the requirement to be tightness tested every 12 months: The monitoring system maintains all product piping outside the dispenser to be fail-safe and shut down the pump when a leak is detected. The monitoring system shuts down the pump or stops flow when a leak is detected in the under dispenser containment (UDC).

Violations

The case was opened following an unauthorized release from an underground storage tank system at the subject site. Corrective action is underway as directed by the CVRWQCB. Corrective action may consist of preliminary site investigation, planning and implementation of remedial action, verification monitoring, or a combination thereof. A summary of the site history is available by clicking on either the "Cleanup Status History", "Regulatory Activities" or the "Site Maps/Documents" tab. For a complete site history the case file at the CVRWQCB should be consulted.

Designated Beneficial Use Desc: Municipal and Domestic Supply, Agricultural Supply, Industrial Service Supply, Industrial Process Supply, Water Contact Recreation, Non-Contact Water Recreation
Site History:

The case was opened following an unauthorized release from an underground storage tank system at the subject site. Corrective action is underway as directed by the CVRWQCB. Corrective action may consist of preliminary site investigation, planning and implementation of remedial action, verification monitoring, or a combination thereof. A summary of the site history is available by clicking on either the "Cleanup Status History", "Regulatory Activities"

Map Key	Number of Records	Direction	Distance (mi/ft)	Elev/Diff (ft)	Site	DB
---------	-------------------	-----------	------------------	----------------	------	----

or the "Site Maps/Documents" tab. For a complete site history the case file at the CVRWQCB should be consulted.

Violation Program: HMRRP **Violation Division:** Fresno County Department of Public Health
Citation: HSC 6.95 25503.5(a) - California Health and Safety Code, Chapter 6.95, Section(s) 25503.5(a)
Violation Notes:

Returned to compliance on 08/23/2014. BP NOT SUBMITTED ELECTRONICALLY

Violation Description:

Owner/Operator failed to establish and implement a Hazardous Materials Business Plan when storing hazardous materials at or above the thresholds quantities of 55 gallons/500 lbs/200 cubic feet.

Violations

Violation Date: 06/07/2018 **Violation Source:** CERS
Violation Program: UST **Violation Division:** Fresno County Department of Public Health
Citation: 23 CCR 16 2641(j) - California Code of Regulations, Title 23, Chapter 16, Section(s) 2641(j)
Violation Notes:

Returned to compliance on 07/07/2018. Printer on Monitor has not functioned in over a year, unable to obtain alarm history or setup records. All floats & chains were adjusted to function properly.

Violation Description:

Failure of the leak detection equipment to be installed, calibrated, operated, and/or maintained properly.

Violations

Violation Date: 06/16/2022 **Violation Source:** CERS
Violation Program: UST **Violation Division:** Fresno County Department of Public Health
Citation: 23 CCR 16 2641(h) - California Code of Regulations, Title 23, Chapter 16, Section(s) 2641(h)
Violation Notes:

3. VIOLATION: Failure to have an approved UST Monitoring Plan. (23 CCR 16 2632(d)(1), 2634(d), 2641(h)) OBSERVATION: Facility does not have an approved Monitoring Plan. CORRECTIVE ACTION: Maintain an Approved Monitoring Plan.

Violation Description:

Failure to have an approved UST Monitoring Plan.

Violations

Violation Date: 06/22/2017 **Violation Source:** CERS
Violation Program: HMRRP **Violation Division:** Fresno County Department of Public Health
Citation: HSC 6.95 25508(a)(1) - California Health and Safety Code, Chapter 6.95, Section(s) 25508(a)(1)
Violation Notes:

Returned to compliance on 01/30/2018.

Violation Description:

Failure to annually review and electronically certify that the business plan is complete and accurate on or before the annual due date.

Violations

Violation Date: 06/16/2022 **Violation Source:** CERS
Violation Program: UST **Violation Division:** Fresno County Department of Public Health
Citation: 23 CCR 16 2712(i) - California Code of Regulations, Title 23, Chapter 16, Section(s) 2712(i)
Violation Notes:

69. VIOLATION: Failure to have current UST Monitoring Plan readily accessible at the facility. (23 CCR 16 2712(i)) OBSERVATION: Owner/Operator did not maintain a current UST monitoring plan readily accessible at the facility. CORRECTIVE ACTION: Maintain a current UST monitoring plan readily accessible at the facility.

The case was opened following an unauthorized release from an underground storage tank system at the subject site. Corrective action is underway as directed by the CVRWQCB. Corrective action may consist of preliminary site investigation, planning and implementation of remedial action, verification monitoring, or a combination thereof. A summary of the site history is available by clicking on either the "Cleanup Status History", "Regulatory Activities" or the "Site Maps/Documents" tab. For a complete site history the case file at the CVRWQCB should be consulted.

No unplottable records were found that may be relevant for the search criteria.

Unplottable Report

No unplottable records were found that may be relevant for the search criteria.

Appendix: Database Descriptions

Environmental Risk Information Services (ERIS) can search the following databases. The extent of historical information varies with each database and current information is determined by what is publicly available to ERIS at the time of update. ERIS updates databases as set out in ASTM Standard E1527-13 and E1527-21, Section 8.1.8 Sources of Standard Source Information:

"Government information from nongovernmental sources may be considered current if the source updates the information at least every 90 days, or, for information that is updated less frequently than quarterly by the government agency, within 90 days of the date the government agency makes the information available to the public."

Standard Environmental Record Sources

Federal

Formerly Utilized Sites Remedial Action Program:

DOE FUSRAP

The U.S. Department of Energy (DOE) established the Formerly Utilized Sites Remedial Action Program (FUSRAP) in 1974 to remediate sites where radioactive contamination remained from the Manhattan Project and early U.S. Atomic Energy Commission (AEC) operations. The DOE Office of Legacy Management (LM) established long-term surveillance and maintenance (LTS&M) requirements for remediated FUSRAP sites. DOE evaluates the final site conditions of a remediated site on the basis of risk for different future uses. DOE then confirms that LTS&M requirements will maintain protectiveness.

Government Publication Date: Mar 4, 2017

National Priority List:

NPL

Sites on the United States Environmental Protection Agency (EPA)'s National Priorities List of the most serious uncontrolled or abandoned hazardous waste sites identified for possible long-term remedial action under the Superfund program. The NPL, which EPA is required to update at least once a year, is based primarily on the score a site receives from EPA's Hazard Ranking System. A site must be on the NPL to receive money from the Superfund Trust Fund for remedial action. Sites are represented by boundaries where available in the EPA Superfund Site Boundaries maintained by the Shared Enterprise Geodata and Services (SEGS). Site boundaries represent the footprint of a whole site, the sum of all of the Operable Units and the current understanding of the full extent of contamination; for Federal Facility sites, the total site polygon may be the Facility boundary. Where there is no polygon boundary data available for a given site, the site is represented as a point.

Government Publication Date: Jul 26, 2022

National Priority List - Proposed:

PROPOSED NPL

Sites proposed - by the EPA, the state agency, or concerned citizens - for addition to the NPL due to contamination by hazardous waste and identified by the Environmental Protection Agency (EPA) as a candidate for cleanup because it poses a risk to human health and/or the environment. Sites are represented by boundaries where available in the EPA Superfund Site Boundaries maintained by the Shared Enterprise Geodata and Services (SEGS). Site boundaries represent the footprint of a whole site, the sum of all of the Operable Units and the current understanding of the full extent of contamination; for Federal Facility sites, the total site polygon may be the Facility boundary. Where there is no polygon boundary data available for a given site, the site is represented as a point.

Government Publication Date: Jul 26, 2022

Deleted NPL:

DELETED NPL

Sites deleted from the United States Environmental Protection Agency (EPA)'s National Priorities List. The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425(e), sites may be deleted from the NPL where no further response is appropriate. Sites are represented by boundaries where available in the EPA Superfund Site Boundaries maintained by the Shared Enterprise Geodata and Services (SEGS). Site boundaries represent the footprint of a whole site, the sum of all of the Operable Units and the current understanding of the full extent of contamination; for Federal Facility sites, the total site polygon may be the Facility boundary. Where there is no polygon boundary data available for a given site, the site is represented as a point.

Government Publication Date: Jul 26, 2022

SEMS List 8R Active Site Inventory:[SEMS](#)

The U.S. Environmental Protection Agency's (EPA) Superfund Program has deployed the Superfund Enterprise Management System (SEMS), which integrates multiple legacy systems into a comprehensive tracking and reporting tool. This inventory contains active sites evaluated by the Superfund program that are either proposed to be or are on the National Priorities List (NPL) as well as sites that are in the screening and assessment phase for possible inclusion on the NPL. The Active Site Inventory Report displays site and location information at active SEMS sites. An active site is one at which site assessment, removal, remedial, enforcement, cost recovery, or oversight activities are being planned or conducted. This data includes SEMS sites from the List 8R Active file as well as applicable sites from the SEMS GIS/REST file layer obtained from EPA's Facility Registry Service.

Government Publication Date: Nov 23, 2022

SEMS List 8R Archive Sites:[SEMS ARCHIVE](#)

The U.S. Environmental Protection Agency's (EPA) Superfund Enterprise Management System (SEMS) Archived Site Inventory displays site and location information at sites archived from SEMS. An archived site is one at which EPA has determined that assessment has been completed and no further remedial action is planned under the Superfund program at this time. This data includes sites from the List 8R Archived site file.

Government Publication Date: Nov 23, 2022

Inventory of Open Dumps, June 1985:[ODI](#)

The Resource Conservation and Recovery Act (RCRA) provides for publication of an inventory of open dumps. The Act defines "open dumps" as facilities which do not comply with EPA's "Criteria for Classification of Solid Waste Disposal Facilities and Practices" (40 CFR 257).

Government Publication Date: Jun 1985

Comprehensive Environmental Response, Compensation and Liability Information System -[CERCLIS](#)**CERCLIS:**

Superfund is a program administered by the United States Environmental Protection Agency (EPA) to locate, investigate, and clean up the worst hazardous waste sites throughout the United States. CERCLIS is a database of potential and confirmed hazardous waste sites at which the EPA Superfund program has some involvement. It contains sites that are either proposed to be or are on the National Priorities List (NPL) as well as sites that are in the screening and assessment phase for possible inclusion on the NPL. The EPA administers the Superfund program in cooperation with individual states and tribal governments; this database is made available by the EPA.

Government Publication Date: Oct 25, 2013

EPA Report on the Status of Open Dumps on Indian Lands:[IODI](#)

Public Law 103-399, The Indian Lands Open Dump Cleanup Act of 1994, enacted October 22, 1994, identified congressional concerns that solid waste open dump sites located on American Indian or Alaska Native (AI/AN) lands threaten the health and safety of residents of those lands and contiguous areas. The purpose of the Act is to identify the location of open dumps on Indian lands, assess the relative health and environment hazards posed by those sites, and provide financial and technical assistance to Indian tribal governments to close such dumps in compliance with Federal standards and regulations or standards promulgated by Indian Tribal governments or Alaska Native entities.

Government Publication Date: Dec 31, 1998

CERCLIS - No Further Remedial Action Planned:[CERCLIS NFRAP](#)

An archived site is one at which EPA has determined that assessment has been completed and no further remedial action is planned under the Superfund program at this time. The Archive designation means that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list this site on the National Priorities List (NPL). This decision does not necessarily mean that there is no hazard associated with a given site; it only means that, based upon available information, the location is not judged to be a potential NPL site.

Government Publication Date: Oct 25, 2013

CERCLIS Liens:[CERCLIS LIENS](#)

A Federal Superfund lien exists at any property where EPA has incurred Superfund costs to address contamination ("Superfund site") and has provided notice of liability to the property owner. A Federal CERCLA ("Superfund") lien can exist by operation of law at any site or property at which EPA has spent Superfund monies. This database is made available by the United States Environmental Protection Agency (EPA). This database was provided by the United States Environmental Protection Agency (EPA). Refer to SEMS LIEN as the current data source for Superfund Liens.

Government Publication Date: Jan 30, 2014

RCRA CORRACTS-Corrective Action:[RCRA CORRACTS](#)

RCRA Info is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. At these sites, the Corrective Action Program ensures that cleanups occur. EPA and state regulators work with facilities and communities to design remedies based on the contamination, geology, and anticipated use unique to each site.

Government Publication Date: Nov 7, 2022

RCRA non-CORRACTS TSD Facilities:[RCRA TSD](#)

RCRA Info is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. This database includes Non-Corrective Action sites listed as treatment, storage and/or disposal facilities of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA).

Government Publication Date: Nov 7, 2022

RCRA Generator List:[RCRA LQG](#)

RCRA Info is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. RCRA Info replaces the data recording and reporting abilities of the Resource Conservation and Recovery Information System (RCRIS) and the Biennial Reporting System (BRS). A hazardous waste generator is any person or site whose processes and actions create hazardous waste (see 40 CFR 260.10). Large Quantity Generators (LQGs) generate 1,000 kilograms per month or more of hazardous waste or more than one kilogram per month of acutely hazardous waste.

Government Publication Date: Nov 7, 2022

RCRA Small Quantity Generators List:[RCRA SQG](#)

RCRA Info is the EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. RCRA Info replaces the data recording and reporting abilities of the Resource Conservation and Recovery Information System (RCRIS) and the Biennial Reporting System (BRS). A hazardous waste generator is any person or site whose processes and actions create hazardous waste (see 40 CFR 260.10). Small Quantity Generators (SQGs) generate more than 100 kilograms, but less than 1,000 kilograms, of hazardous waste per month.

Government Publication Date: Nov 7, 2022

RCRA Very Small Quantity Generators List:[RCRA VSQG](#)

RCRA Info is the EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. A hazardous waste generator is any person or site whose processes and actions create hazardous waste (see 40 CFR 260.10). Very Small Quantity Generators (VSQG) generate 100 kilograms or less per month of hazardous waste, or one kilogram or less per month of acutely hazardous waste. Additionally, VSQG may not accumulate more than 1,000 kilograms of hazardous waste at any time.

Government Publication Date: Nov 7, 2022

RCRA Non-Generators:[RCRA NON GEN](#)

RCRA Info is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. RCRA Info replaces the data recording and reporting abilities of the Resource Conservation and Recovery Information System (RCRIS) and the Biennial Reporting System (BRS). A hazardous waste generator is any person or site whose processes and actions create hazardous waste (see 40 CFR 260.10). Non-Generators do not presently generate hazardous waste.

Government Publication Date: Nov 7, 2022

RCRA Sites with Controls:[RCRA CONTROLS](#)

List of Resource Conservation and Recovery Act (RCRA) facilities with institutional controls in place. RCRA gives the U.S. Environmental Protection Agency (EPA) the authority to control hazardous waste from the "cradle-to-grave." This includes the generation, transportation, treatment, storage, and disposal of hazardous waste. RCRA also set forth a framework for the management of non-hazardous solid wastes. The 1986 amendments to RCRA enabled EPA to address environmental problems that could result from underground tanks storing petroleum and other hazardous substances.

Government Publication Date: Nov 7, 2022

Federal Engineering Controls-ECs:[FED ENG](#)

This list of Engineering controls (ECs) is provided by the United States Environmental Protection Agency (EPA). ECs encompass a variety of engineered and constructed physical barriers (e.g., soil capping, sub-surface venting systems, mitigation barriers, fences) to contain and/or prevent exposure to contamination on a property. The EC listing includes remedy component data from Superfund decision documents issued in fiscal years 1982-2020 for applicable sites on the final or deleted on the National Priorities List (NPL); and sites with a Superfund Alternative Approach (SAA) Agreement in place. The only sites included that are not on the NPL; proposed for NPL; or removed from proposed NPL, are those with an SAA Agreement in place.

Government Publication Date: Oct 27, 2022

Federal Institutional Controls- ICs:

FED INST

This list of Institutional controls (ICs) is provided by the United States Environmental Protection Agency (EPA). ICs are non-engineered instruments, such as administrative and legal controls, that help minimize the potential for human exposure to contamination and/or protect the integrity of the remedy. Although it is EPA's expectation that treatment or engineering controls will be used to address principal threat wastes and that groundwater will be returned to its beneficial use whenever practicable, ICs play an important role in site remedies because they reduce exposure to contamination by limiting land or resource use and guide human behavior at a site. The IC listing includes remedy component data from Superfund decision documents issued in fiscal years 1982-2020 for applicable sites on the final or deleted on the National Priorities List (NPL); and sites with a Superfund Alternative Approach (SAA) Agreement in place. The only sites included that are not on the NPL; proposed for NPL; or removed from proposed NPL, are those with an SAA Agreement in place.

Government Publication Date: Oct 27, 2022**Land Use Control Information System:**

LUCIS

The LUCIS database is maintained by the U.S. Department of the Navy and contains information for former Base Realignment and Closure (BRAC) properties across the United States.

Government Publication Date: Sep 1, 2006**Institutional Control Boundaries at NPL sites:**

NPL IC

Boundaries of Institutional Control areas at sites on the United States Environmental Protection Agency (EPA)'s National Priorities List, or Proposed or Deleted, made available by the EPA's Shared Enterprise Geodata and Services (SEGS). United States Environmental Protection Agency (EPA)'s National Priorities List of the most serious uncontrolled or abandoned hazardous waste sites identified for possible long-term remedial action under the Superfund program. Institutional controls are non-engineered instruments such as administrative and legal controls that help minimize the potential for human exposure to contamination and/or protect the integrity of the remedy.

Government Publication Date: Jul 26, 2022**Emergency Response Notification System:**

ERNS 1982 TO 1986

Database of oil and hazardous substances spill reports controlled by the National Response Center. The primary function of the National Response Center is to serve as the sole national point of contact for reporting oil, chemical, radiological, biological, and etiological discharges into the environment anywhere in the United States and its territories.

Government Publication Date: 1982-1986**Emergency Response Notification System:**

ERNS 1987 TO 1989

Database of oil and hazardous substances spill reports controlled by the National Response Center. The primary function of the National Response Center is to serve as the sole national point of contact for reporting oil, chemical, radiological, biological, and etiological discharges into the environment anywhere in the United States and its territories.

Government Publication Date: 1987-1989**Emergency Response Notification System:**

ERNS

Database of oil and hazardous substances spill reports made available by the United States Coast Guard National Response Center (NRC). The NRC fields initial reports for pollution and railroad incidents and forwards that information to appropriate federal/state agencies for response. These data contain initial incident data that has not been validated or investigated by a federal/state response agency.

Government Publication Date: Nov 6, 2022**The Assessment, Cleanup and Redevelopment Exchange System (ACRES) Brownfield Database:**

FED BROWNFIELDS

Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties protects the environment, reduces blight, and takes development pressures off greenspaces and working lands. This data is provided by the United States Environmental Protection Agency (EPA) and includes Brownfield sites from the Cleanups in My Community (CIMC) web application.

Government Publication Date: Sep 13, 2022**FEMA Underground Storage Tank Listing:**

FEMA UST

The Federal Emergency Management Agency (FEMA) of the Department of Homeland Security maintains a list of FEMA owned underground storage tanks.

Government Publication Date: Dec 31, 2017

Facility Response Plan:**FRP**

List of facilities that have submitted Facility Response Plans (FRP) to EPA. Facilities that could reasonably be expected to cause "substantial harm" to the environment by discharging oil into or on navigable waters are required to prepare and submit Facility Response Plans (FRPs). Harm is determined based on total oil storage capacity, secondary containment and age of tanks, oil transfer activities, history of discharges, proximity to a public drinking water intake or sensitive environments.

Government Publication Date: Dec 31, 2021

Delisted Facility Response Plans:**DELISTED FRP**

Facilities that once appeared in - and have since been removed from - the list of facilities that have submitted Facility Response Plans (FRP) to EPA. Facilities that could reasonably be expected to cause "substantial harm" to the environment by discharging oil into or on navigable waters are required to prepare and submit Facility Response Plans (FRPs). Harm is determined based on total oil storage capacity, secondary containment and age of tanks, oil transfer activities, history of discharges, proximity to a public drinking water intake or sensitive environments.

Government Publication Date: Dec 31, 2021

Historical Gas Stations:**HIST GAS STATIONS**

This historic directory of service stations is provided by the Cities Service Company. The directory includes Cities Service filling stations that were located throughout the United States in 1930.

Government Publication Date: Jul 1, 1930

Petroleum Refineries:**REFN**

List of petroleum refineries from the U.S. Energy Information Administration (EIA) Refinery Capacity Report. Includes operating and idle petroleum refineries (including new refineries under construction) and refineries shut down during the previous year located in the 50 States, the District of Columbia, Puerto Rico, the Virgin Islands, Guam, and other U.S. possessions. Survey locations adjusted using public data.

Government Publication Date: Aug 30, 2022

Petroleum Product and Crude Oil Rail Terminals:**BULK TERMINAL**

List of petroleum product and crude oil rail terminals made available by the U.S. Energy Information Administration (EIA). Includes operable bulk petroleum product terminals located in the 50 States and the District of Columbia with a total bulk shell storage capacity of 50,000 barrels or more, and/or the ability to receive volumes from tanker, barge, or pipeline; also rail terminals handling the loading and unloading of crude oil that were active between 2017 and 2018. Petroleum product terminals comes from the EIA-815 Bulk Terminal and Blender Report, which includes working, shell in operation, and shell idle for several major product groupings. Survey locations adjusted using public data.

Government Publication Date: Jun 29, 2022

LIEN on Property:**SEMS LIEN**

The U.S. Environmental Protection Agency's (EPA) Superfund Enterprise Management System (SEMS) provides Lien details on applicable properties, such as the Superfund lien on property activity, the lien property information, and the parties associated with the lien.

Government Publication Date: Nov 23, 2022

Superfund Decision Documents:**SUPERFUND ROD**

This database contains a listing of decision documents for Superfund sites. Decision documents serve to provide the reasoning for the choice of (or) changes to a Superfund Site cleanup plan. The decision documents include Records of Decision (ROD), ROD Amendments, Explanations of Significant Differences (ESD), along with other associated memos and files. This information is maintained and made available by the US EPA (Environmental Protection Agency).

Government Publication Date: Sep 28, 2022

State**State Response Sites:****RESPONSE**

A list of identified confirmed release sites where the Department of Toxic Substances Control (DTSC) is involved in remediation, either in a lead or oversight capacity. These confirmed release sites are generally high-priority and high potential risk. This database is state equivalent NPL.

Government Publication Date: Oct 17, 2022

EnviroStor Database:**ENVIROSTOR**

The EnviroStor Data Management System is made available by the Department of Toxic Substances Control (DTSC). Includes Corrective Action sites, Tiered Permit sites, Historical Sites and Evaluation/Investigation sites. This database is state equivalent CERCLIS.

Government Publication Date: Oct 17, 2022

Delisted State Response Sites:

DELISTED ENVS

Sites removed from the list of State Response Sites made available by the EnviroStor Data Management System, Department of Toxic Substances Control (DTSC).

Government Publication Date: Oct 17, 2022

Solid Waste Information System (SWIS):

SWF/LF

The Solid Waste Information System (SWIS) database made available by the Department of Resources Recycling and Recovery (CalRecycle) contains information on solid waste facilities, operations, and disposal sites throughout the State of California. The types of facilities found in this database include landfills, transfer stations, material recovery facilities, composting sites, transformation facilities, waste tire sites, and closed disposal sites.

Government Publication Date: Nov 7, 2022

Solid Waste Disposal Sites with Waste Constituents Above Hazardous Waste Levels:

SWRCB SWF

This is a list of solid waste disposal sites identified by California State Water Resources Control Board with waste constituents above hazardous waste levels outside the waste management unit.

Government Publication Date: Sep 20, 2006

Waste Management Unit Database:

WMUD

The Waste Management Unit Database System tracks and inventories waste management units. CCR Title 27 contains criteria stating that Waste Management Units are classified according to their ability to contain wastes. Containment shall be determined by geology, hydrology, topography, climatology, and other factors relating to the ability of the Unit to protect water quality. Water Code Section 13273.1 requires that operators submit a water quality solid waste assessment test (SWAT) report to address leak status. The WMUDS was last updated by the State Water Resources control board in 2000.

Government Publication Date: Jan 1, 2000

EnviroStor Hazardous Waste Facilities:

HWP

A list of hazardous waste facilities including permitted, post-closure and historical facilities found in the Department of Toxic Substances Control (DTSC) EnviroStor database.

Government Publication Date: Oct 17, 2022

Sites Listed in the Solid Waste Assessment Test (SWAT) Program Report:

SWAT

In a 1993 Memorandum of Understanding, the State Water Resources Control Board (SWRCB) agreed to submit a comprehensive report on the Solid Waste Assessment Test (SWAT) Program to the California Integrated Waste Management Board (CIWMB). This report summarizes the work completed to date on the SWAT Program, and addresses both the impacts that leakage from solid waste disposal sites (SWDS) may have upon waters of the State and the actions taken to address such leakage.

Government Publication Date: Dec 31, 1995

Construction and Demolition Debris Recyclers:

C&D DEBRIS RECY

This listing of Construction and Demolition Debris Recyclers is maintained by the California Intergrated Waste Management Board-common C&D materials include lumber, drywall, metals, masonry (brick, concrete, etc.), carpet, plastic, pipe, rocks, dirt, paper, cardboard, or green waste related to land development.

Government Publication Date: Jun 20, 2018

Recycling Centers:

RECYCLING

This list of Certified Recycling Centers that are operating under the state of California's Beverage Container Recycling Program is maintained by the California Department of Resources Recycling and Recovery.

Government Publication Date: Oct 11, 2022

Listing of Certified Processors:

PROCESSORS

This list of Certified Processors that are operating under the state of California's Beverage Container Recycling Program is maintained by the California Department of Resources Recycling and Recovery.

Government Publication Date: Oct 11, 2022

Listing of Certified Dropoff, Collection, and Community Service Programs:

CONTAINER RECY

This list of Certified Dropoff, Collection, and Community Service Programs (non-buyback) operating under the state of California's Beverage Container Recycling Program is maintained by the California Department of Resources Recycling and Recovery.

Government Publication Date: Oct 11, 2022

Land Disposal Sites:

LDS

Land Disposal Sites in GeoTracker, the State Water Resources Control Board (SWRCB)'s data management system. The Land Disposal program regulates of waste discharge to land for treatment, storage and disposal in waste management units. Waste management units include waste piles, surface impoundments, and landfills.

Government Publication Date: Nov 16, 2022

Leaking Underground Fuel Tank Reports:

LUST

List of Leaking Underground Storage Tanks within the Cleanup Sites data in GeoTracker database. GeoTracker is the State Water Resources Control Board's (SWRCB) data management system for managing sites that impact groundwater, especially those that require groundwater cleanup (Underground Storage Tanks, Department of Defense and Site Cleanup Program) as well as permitted facilities such as operating Underground Storage Tanks. The Leak Prevention Program that overlooks LUST sites is the SWRCB in California's Environmental Protection Agency.

Government Publication Date: Nov 16, 2022

Delisted Leaking Storage Tanks:

DELISTED LST

List of Leaking Underground Storage Tanks (LUST) cleanup sites removed from GeoTracker, the State Water Resources Control Board (SWRCB)'s database system, as well as sites removed from the SWRCB's list of UST Case closures.

Government Publication Date: Nov 16, 2022

Permitted Underground Storage Tank (UST) in GeoTracker:

UST

List of Permitted Underground Storage Tank (UST) sites made available by the State Water Resources Control Board (SWRCB) in California's Environmental Protection Agency (EPA).

Government Publication Date: Oct 14, 2022

Proposed Closure of Underground Storage Tank Cases:

UST CLOSURE

List of UST cases that are being considered for closure by either the California Environmental Protection Agency, State Water Resources Control Board or the Executive Director that have been posted for a 60-day public comment period.

Government Publication Date: May 5, 2021

Historical Hazardous Substance Storage Information Database:

HHSS

The Historical Hazardous Substance Storage database contains information collected in the 1980s from facilities that stored hazardous substances. The information was originally collected on paper forms, was later transferred to microfiche, and recently indexed as a searchable database. When using this database, please be aware that it is based upon self-reported information submitted by facilities which has not been independently verified. It is unlikely that every facility responded to the survey and the database should not be expected to be a complete inventory of all facilities that were operating at that time. This database is maintained by the California State Water Resources Control Board's (SWRCB) Geotracker.

Government Publication Date: Aug 27, 2015

Statewide Environmental Evaluation and Planning System:

UST SWEEPS

The Statewide Environmental Evaluation and Planning System (SWEEPS) is a historical listing of active and inactive underground storage tanks made available by the California State Water Resources Control Board (SWRCB).

Government Publication Date: Oct 1, 1994

Aboveground Storage Tanks:

AST

A statewide list from 2009 of aboveground storage tanks (ASTs) made available by the Cal FIRE Office of the State Fire Marshal (OSFM). This list is no longer maintained or updated by the Cal FIRE OSFM.

Government Publication Date: Aug 31, 2009

SWRCB Historical Aboveground Storage Tanks:

AST SWRCB

A list of aboveground storage tanks made available by the California State Water Resources Control Board (SWRCB). Effective January 1, 2008, the Certified Unified Program Agencies (CUPAs) are vested with the responsibility and authority to implement the Aboveground Petroleum Storage Act (APSA).

Government Publication Date: Dec 1, 2007

Oil and Gas Facility Tanks:

TANK OIL GAS

Locations of oil and gas tanks that fall under the jurisdiction of the Geologic Energy Management Division of the California Department of Conservation (CalGEM) (CCR 1760). CalGEM was formerly the Division of Oil, Gas, and Geothermal Resources (DOGGR).

Government Publication Date: Oct 6, 2022

Delisted Storage Tanks:

DELISTED TNK

This database contains a list of storage tank sites that were removed by the State Water Resources Control Board (SWRCB) in California's Environmental Protection Agency (EPA) and the Cal FIRE Office of State Fire Marshal (OSFM).

Government Publication Date: Nov 15, 2022

California Environmental Reporting System (CERS) Tanks:

CERS TANK

List of sites in the California Environmental Protection Agency (CalEPA) Regulated Site Portal which fall under the Aboveground Petroleum Storage and Underground Storage Tank regulatory programs. The CalEPA oversees the statewide implementation of the Unified Program which applies regulatory standards to protect Californians from hazardous waste and materials.

Government Publication Date: Oct 7, 2022

Delisted California Environmental Reporting System (CERS) Tanks:

DELISTED CTNK

This database contains a list of Aboveground Petroleum Storage and Underground Storage Tank sites that were removed from in the California Environmental Protection Agency (CalEPA) Regulated Site Portal.

Government Publication Date: Oct 7, 2022

Historical Hazardous Substance Storage Container Information - Facility Summary:

HIST TANK

The State Water Resources Control Board maintained the Hazardous Substance Storage Containers listing and inventory in the 1980s. This facility summary lists historic tank sites where the following container types were present: farm motor vehicle fuel tanks; waste tanks; sumps; pits, ponds, lagoons, and others; and all other product tanks. This set, published in May 1988, lists facility and owner information, as well as the number of containers. This data is historic and will not be updated.

Government Publication Date: May 27, 1988

Site Mitigation and Brownfields Reuse Program Facility Sites with Land Use Restrictions:

LUR

The Department of Toxic Substances Control (DTSC) Site Mitigation and Brownfields Reuse Program (SMBRP) list includes sites cleaned up under the program's oversight and generally does not include current or former hazardous waste facilities that required a hazardous waste facility permit. The list represents land use restrictions that are active. Some sites have multiple land use restrictions.

Government Publication Date: Oct 17, 2022

CALSITES Database:

CALSITES

This historical database was maintained by the Department of Toxic Substance Control (DTSC) for more than a decade. CALSITES contains information on Brownfield properties with confirmed or potential hazardous contamination. In 2006, DTSC introduced EnviroStor as the latest Brownfields site database.

Government Publication Date: May 1, 2004

Hazardous Waste Management Program Facility Sites with Deed / Land Use Restrictions:

HLUR

The Department of Toxic Substances Control (DTSC) Hazardous Waste Management Program (HWMP) has developed a list of current or former hazardous waste facilities that have a recorded land use restriction at the local county recorder's office. The land use restrictions on this list were required by the DTSC HWMP as a result of the presence of hazardous substances that remain on site after the facility (or part of the facility) has been closed or cleaned up. The types of land use restriction include deed notice, deed restriction, or a land use restriction that binds current and future owners.

Government Publication Date: Feb 18, 2021

Deed Restrictions and Land Use Restrictions:

DEED

List of Deed Restrictions, Land Use Restrictions and Covenants in GeoTracker made available by the State Water Resources Control Board (SWRCB) in California's Environmental Protection Agency. A deed restriction (land use covenant) may be required to facilitate the remediation of past environmental contamination and to protect human health and the environment by reducing the risk of exposure to residual hazardous materials.

Government Publication Date: Nov 16, 2022

Voluntary Cleanup Program:

VCP

List of sites in the Voluntary Cleanup Program made available by the Department of Toxic Substances and Control (DTSC). The Voluntary Cleanup Program was designed to respond to lower priority sites. Under the Voluntary Cleanup Program, DTSC enters site-specific agreements with project proponents for DTSC oversight of site assessment, investigation, and/or removal or remediation activities, and the project proponents agree to pay DTSC's reasonable costs for those services.

Government Publication Date: Oct 17, 2022

GeoTracker Cleanup Program Sites:

CLEANUP SITES

A list of Cleanup Program sites in the state of California made available by The State Water Resources Control Board (SWRCB) of the California Environmental Protection Agency (EPA). SWRCB tracks leaking underground storage tank cleanups as well as other water board cleanups.

Delisted Cleanup Program Sites:

[DELISTED CLEANUP](#)

A list of Cleanup Program sites which were once included - and have since been removed from - the list of Cleanup Program Sites in GeoTracker. GeoTracker is the State Water Resource Control Boards' data management system for sites that impact, or have the potential to impact, water quality in California, with emphasis on groundwater.

Government Publication Date: Nov 16, 2022

Delisted County Records:

[DELISTED COUNTY](#)

Records removed from county or CUPA databases. Records may be removed from the county lists made available by the respective county departments because they are inactive, or because they have been deemed to be below reportable thresholds.

Government Publication Date: Dec 16, 2022

Tribal

Leaking Underground Storage Tanks (LUSTs) on Indian Lands:

[INDIAN LUST](#)

LUSTs on Tribal/Indian Lands in Region 9, which includes California.

Government Publication Date: Apr 8, 2022

Underground Storage Tanks (USTs) on Indian Lands:

[INDIAN UST](#)

USTs on Tribal/Indian Lands in Region 9, which includes California.

Government Publication Date: Apr 8, 2022

Delisted Tribal Leaking Storage Tanks:

[DELISTED INDIAN LST](#)

Leaking Underground Storage Tank (LUST) facilities which once appeared on - and have since been removed from - the Regional Tribal/Indian LUST lists made available by the United States Environmental Protection Agency (EPA).

Government Publication Date: Oct 19, 2022

Delisted Tribal Underground Storage Tanks:

[DELISTED INDIAN UST](#)

Underground Storage Tank (UST) facilities which once appeared on - and have since been removed from - the Regional Tribal/Indian UST lists made available by the United States Environmental Protection Agency (EPA).

Government Publication Date: Oct 19, 2022

County

Fresno County - CUPA/Solid Waste Programs Resource List:

[CUPA FRESNO](#)

A list of facilities associated with various Certified Unified Program Agency (CUPA) programs in Fresno County. This list is made available by Fresno County Department of Environmental Health Division which is approved by Cal-EPA as CUPA for the County.

Government Publication Date: Jun 28, 2021

Additional Environmental Record Sources

Federal

Facility Registry Service/Facility Index:

[FINDS/FRS](#)

The Facility Registry Service (FRS) is a centrally managed database that identifies facilities, sites, or places subject to environmental regulations or of environmental interest. FRS creates high-quality, accurate, and authoritative facility identification records through rigorous verification and management procedures that incorporate information from program national systems, state master facility records, and data collected from EPA's Central Data Exchange registrations and data management personnel. This list is made available by the Environmental Protection Agency (US EPA).

Government Publication Date: Nov 2, 2020

Toxics Release Inventory (TRI) Program:

[TRIS](#)

The EPA's Toxics Release Inventory (TRI) is a database containing data on disposal or other releases of over 650 toxic chemicals from thousands of U.S. facilities and information about how facilities manage those chemicals through recycling, energy recovery, and treatment. One of TRI's primary purposes is to inform communities about toxic chemical releases to the environment.

Government Publication Date: Aug 24, 2021

Perfluorinated Alkyl Substances (PFAS) Releases:

[PFAS TRI](#)

List of Toxics Release Inventory (TRI) facilities at which the reported chemical is a Per- or polyfluorinated alkyl substance (PFAS) included in the Environmental Protection Agency (EPA)'s consolidated PFAS Master List of PFAS Substances. The EPA's Toxics Release Inventory (TRI) is a database containing data on disposal or other releases of over 650 toxic chemicals from thousands of U.S. facilities and information about how facilities manage those chemicals through recycling, energy recovery, and treatment.

Government Publication Date: Aug 24, 2021

PFOA/PFOS Contaminated Sites:

[PFAS NPL](#)

List of National Priorities List (NPL) and related Superfund Alternative Agreement (SAA) sites where PFOA or PFOS contaminants have been found in water and/or soil. The site listing is provided by the Federal Environmental Protection Agency (EPA).

Government Publication Date: Oct 4, 2022

Perfluorinated Alkyl Substances (PFAS) Water Quality:

[PFAS WATER](#)

The Water Quality Portal (WQP) is a cooperative service sponsored by the United States Geological Survey (USGS), the Environmental Protection Agency (EPA), and the National Water Quality Monitoring Council (NWQMC). This listing includes records from the Water Quality Portal where the characteristic (environmental measurement) is in the Environmental Protection Agency (EPA)'s consolidated PFAS Master List of PFAS Substances.

Government Publication Date: Jul 20, 2020

SSEHRI PFAS Contamination Sites:

[PFAS SSEHRI](#)

This PFAS Contamination Site Tracker database is compiled by the Social Science Environmental Health Research Institute (SSEHRI) at Northeastern University. According to the SSEHRI, the database records qualitative and quantitative data from each known site of PFAS contamination, including timeline of discovery, sources, levels, health impacts, community response, and government response. The goal of this database is to compile information and support public understanding of the rapidly unfolding issue of PFAS contamination. All data presented was extracted from government websites, news articles, or publicly available documents, and this is cited in the tracker. Disclaimer: The source conveys this database undergoes regular updates as new information becomes available, some sites may be missing and/or contain information that is incorrect or outdated, as well as their information represents all contamination sites SSEHRI is aware of, not all possible contamination sites. This data is not intended to be used for legal purposes. Limited location details are available with this data. Access the following for the most current informations <https://pfasproject.com/pfas-contamination-site-tracker/>

Government Publication Date: Dec 12, 2019

National Response Center PFAS Spills:

[ERNS PFAS](#)

National Response Center (NRC) calls from 1990 to the most recent complete calendar year where there is indication of Aqueous Film Forming Foam (AFFF) usage. NRC calls may reference AFFF usage in the "Material Involved" or "Incident Description" fields. Data made available by the US Environmental Protection Agency (EPA). Disclaimer: dataset may include initial or misidentified incident data not yet validated or investigated by a federal/state response agency.

Government Publication Date: Feb 23, 2022

Hazardous Materials Information Reporting System:

[HMIRS](#)

US DOT - Department of Transportation Pipeline and Hazardous Materials Safety Administration (PHMSA) Incidents Reports Database taken from Hazmat Intelligence Portal, U.S. Department of Transportation.

Government Publication Date: Sep 1, 2020

National Clandestine Drug Labs:

[NCDL](#)

The U.S. Department of Justice ("the Department"), Drug Enforcement Administration (DEA), provides this data as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy.

Government Publication Date: Aug 30, 2022

Toxic Substances Control Act:

[TSCA](#)

The Environmental Protection Agency (EPA) is amending the Toxic Substances Control Act (TSCA) section 8(a) Inventory Update Reporting (IUR) rule and changing its name to the Chemical Data Reporting (CDR) rule.

The CDR enables EPA to collect and publish information on the manufacturing, processing, and use of commercial chemical substances and mixtures (referred to hereafter as chemical substances) on the TSCA Chemical Substance Inventory (TSCA Inventory). This includes current information on chemical substance production volumes, manufacturing sites, and how the chemical substances are used. This information helps the Agency determine whether people or the environment are potentially exposed to reported chemical substances. EPA publishes submitted CDR data that is not Confidential Business Information (CBI).

Government Publication Date: Apr 11, 2019

Hist TSCA:

[HIST TSCA](#)

The Environmental Protection Agency (EPA) is amending the Toxic Substances Control Act (TSCA) section 8(a) Inventory Update Reporting (IUR) rule and changing its name to the Chemical Data Reporting (CDR) rule.

The 2006 IUR data summary report includes information about chemicals manufactured or imported in quantities of 25,000 pounds or more at a single site during calendar year 2005. In addition to the basic manufacturing information collected in previous reporting cycles, the 2006 cycle is the first time EPA collected information to characterize exposure during manufacturing, processing and use of organic chemicals. The 2006 cycle also is the first time manufacturers of inorganic chemicals were required to report basic manufacturing information.

Government Publication Date: Dec 31, 2006

FTTS Administrative Case Listing:

[FTTS ADMIN](#)

An administrative case listing from the Federal Insecticide, Fungicide, & Rodenticide Act (FIFRA) and Toxic Substances Control Act (TSCA), together known as FTTS. This database was obtained from the Environmental Protection Agency's (EPA) National Compliance Database (NCDB). The FTTS and NCDB was shut down in 2006.

Government Publication Date: Jan 19, 2007

FTTS Inspection Case Listing:

[FTTS INSP](#)

An inspection case listing from the Federal Insecticide, Fungicide, & Rodenticide Act (FIFRA) and Toxic Substances Control Act (TSCA), together known as FTTS. This database was obtained from the Environmental Protection Agency's (EPA) National Compliance Database (NCDB). The FTTS and NCDB was shut down in 2006.

Government Publication Date: Jan 19, 2007

Potentially Responsible Parties List:

[PRP](#)

Early in the site cleanup process, the U.S. Environmental Protection Agency (EPA) conducts a search to find the Potentially Responsible Parties (PRPs). The EPA looks for evidence to determine liability by matching wastes found at the site with parties that may have contributed wastes to the site. This listing contains PRPs, Noticed Parties, at sites in the EPA's Superfund Enterprise Management System (SEMS).

Government Publication Date: Nov 23, 2022

State Coalition for Remediation of Drycleaners Listing:

[SCRD DRYCLEANER](#)

The State Coalition for Remediation of Drycleaners (SCRD) was established in 1998, with support from the U.S. Environmental Protection Agency (EPA) Office of Superfund Remediation and Technology Innovation. Coalition members are states with mandated programs and funding for drycleaner site remediation. Current members are Alabama, Connecticut, Florida, Illinois, Kansas, Minnesota, Missouri, North Carolina, Oregon, South Carolina, Tennessee, Texas, and Wisconsin. Since 2017, the SCRD no longer maintains this data, refer to applicable state source data where available.

Government Publication Date: Nov 08, 2017

Integrated Compliance Information System (ICIS):

[ICIS](#)

The U.S. Environmental Protection Agency's Enforcement and Compliance History Online system incorporates data from the Integrated Compliance Information System - National Pollutant Discharge Elimination System (ICIS-NPDES). ICIS-NPDES is an information management system maintained by the Office of Compliance to track permit compliance and enforcement status of facilities regulated by the NPDES under the Clean Water Act. This data includes permit, inspection, violation and enforcement action information for applicable ICIS records.

Government Publication Date: Oct 15, 2022

Drycleaner Facilities:

[FED DRYCLEANERS](#)

A list of drycleaner facilities from Enforcement and Compliance History Online (ECHO) online search. The Environmental Protection Agency (EPA) tracks facilities that possess NAIC and SIC codes that classify businesses as drycleaner establishments.

Government Publication Date: Jun 25, 2022

Delisted Drycleaner Facilities:

[DELISTED FED DRY](#)

List of sites removed from the list of Drycleaner Facilities (sites in the EPA's Integrated Compliance Information System (ICIS) with NAIC or SIC codes identifying the business as a drycleaner establishment).

Government Publication Date: Jun 25, 2022

Formerly Used Defense Sites:**FUDS**

Formerly Used Defense Sites (FUDS) are properties that were formerly owned by, leased to, or otherwise possessed by and under the jurisdiction of the Secretary of Defense prior to October 1986, where the Department of Defense (DOD) is responsible for an environmental restoration. The FUDS Annual Report to Congress (ARC) is published by the U.S. Army Corps of Engineers (USACE). This data is compiled from the USACE's Geospatial FUDS data layers and Homeland Infrastructure Foundation-Level Data (HIFLD) FUDS dataset.

Government Publication Date: Jul 12, 2022

Former Military Nike Missile Sites:**FORMER NIKE**

This information was taken from report DRXTH-AS-IA-83A016 (Historical Overview of the Nike Missile System, 12/1984) which was performed by Environmental Science and Engineering, Inc. for the U.S. Army Toxic and Hazardous Materials Agency Assessment Division. The Nike system was deployed between 1954 and the mid-1970's. Among the substances used or stored on Nike sites were liquid missile fuel (JP-4); starter fluids (UDKH, aniline, and furfuryl alcohol); oxidizer (IRFNA); hydrocarbons (motor oil, hydraulic fluid, diesel fuel, gasoline, heating oil); solvents (carbon tetrachloride, trichloroethylene, trichloroethane, stoddard solvent); and battery electrolyte. The quantities of material a disposed of and procedures for disposal are not documented in published reports. Virtually all information concerning the potential for contamination at Nike sites is confined to personnel who were assigned to Nike sites. During deactivation most hardware was shipped to depot-level supply points. There were reportedly instances where excess materials were disposed of on or near the site itself at closure. There was reportedly no routine site decontamination.

Government Publication Date: Dec 2, 1984

PHMSA Pipeline Safety Flagged Incidents:**PIPELINE INCIDENT**

A list of flagged pipeline incidents made available by the U.S. Department of Transportation (US DOT) Pipeline and Hazardous Materials Safety Administration (PHMSA). PHMSA regulations require incident and accident reports for five different pipeline system types.

Government Publication Date: Mar 31, 2021

Material Licensing Tracking System (MLTS):**MLTS**

A list of sites that store radioactive material subject to the Nuclear Regulatory Commission (NRC) licensing requirements. This list is maintained by the NRC. As of September 2016, the NRC no longer releases location information for sites. Site locations were last received in July 2016.

Government Publication Date: May 11, 2021

Historic Material Licensing Tracking System (MLTS) sites:**HIST MLTS**

A historic list of sites that have inactive licenses and/or removed from the Material Licensing Tracking System (MLTS). In some cases, a site is removed from the MLTS when the state becomes an "Agreement State". An Agreement State is a State that has signed an agreement with the Nuclear Regulatory Commission (NRC) authorizing the State to regulate certain uses of radioactive materials within the State.

Government Publication Date: Jan 31, 2010

Mines Master Index File:**MINES**

The Master Index File (MIF) is provided by the United State Department of Labor, Mine Safety and Health Administration (MSHA). This file, which was originally created in the 1970's, contained many Mine-IDs that were invalid. MSHA removes invalid IDs from the MIF upon discovery. MSHA applicable data includes the following: all Coal and Metal/Non-Metal mines under MSHA's jurisdiction since 1/1/1970; mine addresses for all mines in the database except for Abandoned mines prior to 1998 from MSHA's legacy system (addresses may or may not correspond with the physical location of the mine itself); violations that have been assessed penalties as a result of MSHA inspections beginning on 1/1/2000; and violations issued as a result of MSHA inspections conducted beginning on 1/1/2000.

Government Publication Date: Aug 3, 2022

Surface Mining Control and Reclamation Act Sites:**SMCRA**

An inventory of land and water impacted by past mining (primarily coal mining) is maintained by the Office of Surface Mining Reclamation and Enforcement (OSMRE) to provide information needed to implement the Surface Mining Control and Reclamation Act of 1977 (SMCRA). The inventory contains information on the location, type, and extent of Abandoned Mine Land (AML) impacts, as well as information on the cost associated with the reclamation of those problems. The inventory is based upon field surveys by State, Tribal, and OSMRE program officials. It is dynamic to the extent that it is modified as new problems are identified and existing problems are reclaimed.

Government Publication Date: Aug 18, 2022

Mineral Resource Data System:**MRDS**

The Mineral Resource Data System (MRDS) is a collection of reports describing metallic and nonmetallic mineral resources throughout the world. Included are deposit name, location, commodity, deposit description, geologic characteristics, production, reserves, resources, and references. This database contains the records previously provided in the Mineral Resource Data System (MRDS) of USGS and the Mineral Availability System/Mineral Industry Locator System (MAS/MILS) originated in the U.S. Bureau of Mines, which is now part of USGS. The USGS has ceased systematic updates of the MRDS database with their focus more recently on deposits of critical minerals while providing a well-documented baseline of historical mine locations from USGS topographic maps.

DOE Legacy Management Sites:

[LM SITES](#)

The U.S. Department of Energy (DOE) Office of Legacy Management (LM) currently manages radioactive and chemical waste, environmental contamination, and hazardous material at over 100 sites across the U.S. The LM manages sites with diverse regulatory drivers (statutes or programs that direct cleanup and management requirements at DOE sites) or as part of internal DOE or congressionally-recognized programs, such as but not limited to: Formerly Utilized Sites Remedial Action Program (FUSRAP), Uranium Mill Tailings Radiation Control Act (UMTRCA Title I, Title II), Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA), Resource Conservation and Recovery Act (RCRA), Decontamination and Decommissioning (D&D), Nuclear Waste Policy Act (NWPA). This site listing includes data exported from the DOE Office of LM's Geospatial Environmental Mapping System (GEMS). GEMS Data disclaimer: The DOE Office of LM makes no representation or warranty, expressed or implied, regarding the use, accuracy, availability, or completeness of the data presented herein.

Government Publication Date: Dec 1, 2022

Alternative Fueling Stations:

[ALT FUELS](#)

This list of alternative fueling stations is sourced from the Alternative Fuels Data Center (AFDC). The U.S. Department of Energy's Office of Energy Efficiency & Renewable Energy launched the AFDC in 1991 as a repository for alternative fuel vehicle performance data, which provides a wealth of information and data on alternative and renewable fuels, advanced vehicles, fuel-saving strategies, and emerging transportation technologies. The data includes Biodiesel (B20 and above), Compressed Natural Gas (CNG), Electric, Ethanol (E85), Hydrogen, Liquefied Natural Gas (LNG), Propane (LPG) fuel type locations.

Government Publication Date: Oct 10, 2022

Superfunds Consent Decrees:

[CONSENT DECREES](#)

This list of Superfund consent decrees is provided by the Department of Justice, Environment & Natural Resources Division (ENRD) through a Freedom of Information Act (FOIA) applicable file. This listing includes Consent Decrees for CERCLA or Superfund Sites filed and/or as proposed within the ENRD's Case Management System (CMS) since 2010. CMS may not reflect the latest developments in a case nor can the agency guarantee the accuracy of the data. ENRD Disclaimer: Congress excluded three discrete categories of law enforcement and national security records from the requirements of the FOIA; response is limited to those records that are subject to the requirements of the FOIA; however, this should not be taken as an indication that excluded records do, or do not, exist.

Government Publication Date: Sep 15, 2022

Air Facility System:

[AFS](#)

This EPA retired Air Facility System (AFS) dataset contains emissions, compliance, and enforcement data on stationary sources of air pollution. Regulated sources cover a wide spectrum; from large industrial facilities to relatively small operations such as dry cleaners. AFS does not contain data on facilities that are solely asbestos demolition and/or renovation contractors, or landfills. ECHO Clean Air Act data from AFS are frozen and reflect data as of October 17, 2014; the EPA retired this system for Clean Air Act stationary sources and transitioned to ICIS-Air.

Government Publication Date: Oct 17, 2014

Registered Pesticide Establishments:

[SSTS](#)

List of active EPA-registered foreign and domestic pesticide-producing and device-producing establishments based on data from the Section Seven Tracking System (SSTS). The Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) Section 7 requires that facilities producing pesticides, active ingredients, or devices be registered. The list of establishments is made available by the EPA.

Government Publication Date: Mar 30, 2022

Polychlorinated Biphenyl (PCB) Transformers:

[PCBT](#)

Locations of Transformers Containing Polychlorinated Biphenyls (PCBs) registered with the United States Environmental Protection Agency. PCB transformer owners must register their transformer(s) with EPA. Although not required, PCB transformer owners who have removed and properly disposed of a registered PCB transformer may notify EPA to have their PCB transformer de-registered. Data made available by EPA.

Government Publication Date: Oct 15, 2019

Polychlorinated Biphenyl (PCB) Notifiers:

[PCB](#)

Facilities included in the national list of facilities that have notified the United States Environmental Protection Agency (EPA) of Polychlorinated Biphenyl (PCB) activities. Any company or person storing, transporting or disposing of PCBs or conducting PCB research and development must notify the EPA and receive an identification number.

Government Publication Date: Jul 28, 2022

State

Dry Cleaning Facilities:[DRYCLEANERS](#)

A list of drycleaner related facilities that have EPA ID numbers. These are facilities with certain SIC codes: power laundries, family and commercial, linen supply, commercial laundry, dry cleaning and pressing machines - Coin Operated Laundry and Dry Cleaning. This is provided by the Department of Toxic Substance Control.

Government Publication Date: Dec 20, 2021

Delisted Drycleaners:[DELISTED DRYCLEANERS](#)

Sites removed from the list of drycleaner related facilities that have EPA ID numbers, made available by the California Department of Toxic Substance Control.

Government Publication Date: Feb 28, 2020

Non-Toxic Dry Cleaning Incentive Program:[DRYC GRANT](#)

A list of grant recipients of the Non-Toxic Dry Cleaning Incentive Program made available by the California Air Resources Board (CARB). The program provides grants to eligible dry cleaning businesses to assist them in transitioning away from PERC machines to alternative non-toxic and non-smog forming technologies.

Government Publication Date: Feb 28, 2020

Per- and Polyfluoroalkyl Substances (PFAS):[PFAS](#)

List of FAA Part 139 Airports, Selected Landfills, and Chrome Plating Facilities from California Water Boards PFAS Investigations, as well as sites from the State Water Resources Control Board (SWRCB)'s GeoTracker at which one or more of the potential contaminants of concern are in the PFAS Master List of PFAS Substances made available by the Environmental Protection Agency (US EPA).

Government Publication Date: Feb 15, 2022

PFOA/PFOS Groundwater:[PFAS GW](#)

A list of water wells from the Groundwater Ambient Monitoring and Assessment Program (GAMA) Groundwater Information System with the groundwater chemical perfluorooctanoic acid (PFOA) (NL = 0.014 UG/L) or perfluorooctanoic sulfonate (PFOS) (NL = 0.013 UG/L). The GAMA Groundwater Information System search is made available by California Water Boards.

Government Publication Date: Nov 11, 2022

Hazardous Waste and Substances Site List - Site Cleanup:[HWSS CLEANUP](#)

The Hazardous Waste and Substances Sites (Cortese) List is a planning document used by the State, local agencies and developers to comply with the California Environmental Quality Act requirements in providing information about the location of hazardous materials release sites. This list is published by California Department of Toxic Substance Control.

Government Publication Date: May 20, 2021

Toxic Pit Cleanup Act Sites:[TOXIC PITS](#)

The Toxic Pits Cleanup Act (TPCA) list identifies sites suspected of containing hazardous substances where cleanup has not yet been completed. This list was maintained by the State Water Resources Control Board (SWRCB), is no longer maintained, and updates are not planned.

Government Publication Date: Jul 1, 1995

List of Hazardous Waste Facilities Subject to Corrective Action:[DTSC HWF](#)

This is a list of hazardous waste facilities identified in Health and Safety Code (HSC) § 25187.5. These facilities are those where Department of Toxic Substances Control (DTSC) has taken or contracted for corrective action because a facility owner/operator has failed to comply with a date for taking corrective action in an order issued under HSC § 25187, or because DTSC determined that immediate corrective action was necessary to abate an imminent or substantial endangerment.

Government Publication Date: Jul 18, 2016

EnviroStor Inspection, Compliance, and Enforcement:[INSP COMP ENF](#)

A list of permitted facilities with inspections and enforcements tracked in the Department of Toxic Substance Control (DTSC) EnviroStor.

Government Publication Date: Apr 29, 2021

School Property Evaluation Program Sites:[SCH](#)

A list of sites registered with The Department of Toxic Substances Control (DTSC) School Property Evaluation and Cleanup (SPEC) Division. SPEC is responsible for assessing, investigating and cleaning up proposed school sites. The Division ensures that selected properties are free of contamination or, if the properties were previously contaminated, that they have been cleaned up to a level that protects the students and staff who will occupy the new school.

Government Publication Date: Oct 17, 2022

California Hazardous Material Incident Report System (CHMIRS):

CHMIRS

A list of reported hazardous material incidents, spills, and releases from the California Hazardous Material Incident Report System (CHMIRS). This list has been made available by the California Office of Emergency Services (OES).

Government Publication Date: Aug 15, 2022

Historical California Hazardous Material Incident Report System (CHMIRS):

HIST CHMIRS

A list of reported hazardous material incidents, spills, and releases from the California Hazardous Material Incident Report System (CHMIRS) prior to 1993. This list has been made available by the California Office of Emergency Services (OES).

Government Publication Date: Jan 1, 1993

Handlers from Hazardous Waste Manifest Data:

HAZNET

A list of handlers not otherwise classified as Treatment, Storage, Disposal facilities (TSDF) or generators from the facilities and manifests data made available by the California Department of Toxic Substances Control (DTSC) in their Hazardous Waste Tracking System (HWTS).

Government Publication Date: Oct 24, 2016

Generators from Hazardous Waste Manifest Data:

HAZ GEN

List of handlers listed as having generated waste from the facilities and manifests data made available by the California Department of Toxic Substances Control (DTSC) in their Hazardous Waste Tracking System (HWTS).

Government Publication Date: Dec 31, 2017

TSDF from Hazardous Waste Manifest Data:

HAZ TSD

List of Treatment, Storage, and Disposal Facilities (TSDFs) from the facilities and manifests data made available by the California Department of Toxic Substances Control (DTSC) in their Hazardous Waste Tracking System (HWTS).

Government Publication Date: Dec 31, 2017

Historical Hazardous Waste Manifest Data:

HIST MANIFEST

A list of historic hazardous waste manifests received by the Department of Toxic Substances Control (DTSC) from year the 1980 to 1992. The volume of manifests is typically 900,000 - 1,000,000 annually, representing approximately 450,000 - 500,000 shipments.

Government Publication Date: Dec 31, 1992

DTSC Registered Hazardous Waste Transporters:

HW TRANSPORT

The California Department of Toxic Substances Control (DTSC) maintains this list of Registered Hazardous Waste Transporters.

Government Publication Date: Dec 9, 2022

Registered Waste Tire Haulers:

WASTE TIRE

This list of registered waste tire haulers is maintained by the California Department of Resources Recycling and Recovery.

Government Publication Date: Oct 11, 2022

California Medical Waste Management Program Facility List:

MEDICAL WASTE

This list of Medical Waste Management Program Facilities is maintained by the California Department of Public Health. The Medical Waste Management Program (MWMP) regulates the generation, handling, storage, treatment, and disposal of medical waste by providing oversight for the implementation of the Medical Waste Management Act (MWMA). The MWMP permits and inspects all medical waste off-site treatment facilities, medical waste transporters, and medical waste transfer stations. This list contains transporters, treatment, and transfer facilities.

Government Publication Date: Oct 31, 2022

Historical Cortese List:

HIST CORTESE

List of sites which were once included on the Cortese list. The Hazardous Waste and Substances Sites (Cortese) List is a planning document used by the State, local agencies and developers to comply with the California Environmental Quality Act requirements for providing information about the location of hazardous sites.

Government Publication Date: Nov 13, 2008

Cease and Desist Orders and Cleanup and Abatement Orders:

CDO/CAO

The California Environment Protection Agency "Cortese List" of active Cease and Desist Orders (CDO) and Cleanup and Abatement Orders (CAO). This list contains many CDOs and CAOs that do NOT concern the discharge of wastes that are hazardous materials. Many of the listed orders concern, as examples, discharges of domestic sewage, food processing wastes, or sediment that do not contain hazardous materials, but the Water Boards' database does not distinguish between these types of orders.

Government Publication Date: Dec 6, 2021

California Environmental Reporting System (CERS) Hazardous Waste Sites:[CERS HAZ](#)

List of sites in the California Environmental Protection Agency (CalEPA) Regulated Site Portal which fall under the following regulatory programs: Hazardous Chemical Management, Hazardous Waste Onsite Treatment, Household Hazardous Waste Collection, Hazardous Waste Generator, RCRA LQ HW Generator. The CalEPA oversees the statewide implementation of the Unified Program which applies regulatory standards to protect Californians from hazardous waste and materials.

Government Publication Date: Oct 7, 2022

Delisted Environmental Reporting System (CERS) Hazardous Waste Sites:[DELISTED HAZ](#)

This database contains a list of sites that were removed from the California Environmental Protection Agency (CalEPA) in the following regulatory programs: Hazardous Chemical Management, Hazardous Waste Onsite Treatment, Household Hazardous Waste Collection, Hazardous Waste Generator, RCRA LQ HW Generator.

Government Publication Date: Nov 29, 2018

Sites in GeoTracker:[GEOTRACKER](#)

GeoTracker is the State Water Resource Control Boards' data management system for sites that impact, or have the potential to impact, water quality in California, with emphasis on groundwater. This is a list of sites in GeoTracker that aren't otherwise categorized as LUST, Land Disposal Sites (LDS), Cleanup Sites, or sites having Waste Discharge Requirements (WDR). This listing includes program types such as Underground Injection Control (UIC), Confined Animal Facilities (CAF), Irrigated Lands Regulatory Program, plans, and non-case information.

Government Publication Date: Nov 16, 2022

Mines Listing:[MINE](#)

This list includes mine site locations extracted from the Mines Online database, maintained by the California Department of Conservation. Mines Online (MOL) is an interactive web map designed with GIS features that provide information such as the mine name, mine status, commodity sold, location, and other mine specific data. Please note: Mine location information is provided to assist experts in determining the location of mine operators in accordance with California Civil Code section 1103.4 and reflects information reported by mine operators in annual reports provided under Public Resources Code section 2207. While the Division of Mine Reclamation (DMR) attempts to populate MOL with accurate location information, the DMR cannot guarantee the accuracy of operator reported location information.

Government Publication Date: Jun 23, 2022

Recorded Environmental Cleanup Liens:[LIEN](#)

The California Department of Toxic Substance Control (DTSC) maintains this list of liens placed upon real properties. A lien is utilized by the DTSC to obtain reimbursement from responsible parties for costs associated with the remediation of contaminated properties.

Government Publication Date: Aug 3, 2022

Waste Discharge Requirements:[WASTE DISCHG](#)

List of sites in California State Water Resources Control Board (SWRCB) Waste Discharge Requirements (WDRs) Program in California, made available by the SWRCB via GeoTracker. The WDR program regulates point discharges that are exempt pursuant to Subsection 20090 of Title 27 and not subject to the Federal Water Pollution Control Act. The scope of the WDRs Program also includes the discharge of wastes classified as inert, pursuant to section 20230 of Title 27.

Government Publication Date: Nov 16, 2022

Toxic Pollutant Emissions Facilities:[EMISSIONS](#)

A list of criteria and toxic pollutant emissions data for facilities in California made available by the California Environmental Protection Agency - Air Resources Board (ARB). Risk data may be based on previous inventory submittals. The toxics data are submitted to the ARB by the local air districts as requirement of the Air Toxics "Hot Spots" Program. This program requires emission inventory updates every four years.

Government Publication Date: Dec 31, 2020

Clandestine Drug Lab Sites:[CDL](#)

The Department of Toxic Substances Control (DTSC) maintains a listing of drug lab sites. DTSC is responsible for removal and disposal of hazardous substances discovered by law enforcement officials while investigating illegal/ clandestine drug laboratories.

Government Publication Date: Jan 19, 2021

Tribal

No Tribal additional environmental record sources available for this State.

County

Definitions

Database Descriptions: This section provides a detailed explanation for each database including: source, information available, time coverage, and acronyms used. They are listed in alphabetic order.

Detail Report: This is the section of the report which provides the most detail for each individual record. Records are summarized by location, starting with the project property followed by records in closest proximity.

Distance: The distance value is the distance between plotted points, not necessarily the distance between the sites' boundaries. All values are an approximation.

Direction: The direction value is the compass direction of the site in respect to the project property and/or center point of the report.

Elevation: The elevation value is taken from the location at which the records for the site address have been plotted. All values are an approximation. Source: Google Elevation API.

Executive Summary: This portion of the report is divided into 3 sections:

'Report Summary'- Displays a chart indicating how many records fall on the project property and, within the report search radii.

'Site Report Summary'-Project Property'- This section lists all the records which fall on the project property. For more details, see the 'Detail Report' section.

'Site Report Summary-Surrounding Properties'- This section summarizes all records on adjacent properties, listing them in order of proximity from the project property. For more details, see the 'Detail Report' section.

Map Key: The map key number is assigned according to closest proximity from the project property. Map Key numbers always start at #1. The project property will always have a map key of '1' if records are available. If there is a number in brackets beside the main number, this will indicate the number of records on that specific property. If there is no number in brackets, there is only one record for that property.

The symbol and colour used indicates 'elevation': the red inverted triangle will dictate 'ERIS Sites with Lower Elevation', the yellow triangle will dictate 'ERIS Sites with Higher Elevation' and the orange square will dictate 'ERIS Sites with Same Elevation.'

Unplottables: These are records that could not be mapped due to various reasons, including limited geographic information. These records may or may not be in your study area, and are included as reference.

RE: CITY DIRECTORY RESEARCH
239 W Shaw Ave
Clovis, CA 93612

Thank you for contacting ERIS for an City Directory Search for the site described above. Our staff has conducted a reverse listing City Directory search to determine prior occupants of the subject site and adjacent properties. We have provided the nearest addresses(s) when adjacent addresses are not listed. If we have searched a range of addresses, all addresses in that range found in the Directory are included.

Note: Reverse Listing Directories generally are focused on more highly developed areas. Newly developed areas may be covered in the more recent years, but the older directories will tend to cover only the "central" parts of the city. To complete the search, we have either utilized the ACPL, Library of Congress, State Archives, and/or a regional library or history center as well as multiple digitized directories. These do not claim to be a complete collection of all reverse listing city directories produced.

ERIS has made every effort to provide accurate and complete information but shall not be held liable for missing, incomplete or inaccurate information. To complete this search we used the general range(s) below to search for relevant findings. If you believe there are additional addresses or streets that require searching please contact us at 866-517-5204.

Search Criteria:

1550-2400 of Villa Ave
130-340 of West Shaw Avenue

The ERIS **Physical Setting Report - PSR** provides comprehensive information about the physical setting around a site and includes a complete overview of topography and surface topology, in addition to hydrologic, geologic and soil characteristics. The location and detailed attributes of oil and gas wells, water wells, public water systems and radon are also included for review.

The compilation of both physical characteristics of a site and additional attribute data is useful in assessing the impact of migration of contaminants and subsequent impact on soils and groundwater.

Disclaimer

This Report does not provide a full environmental evaluation for the site or adjacent properties. Please see the terms and disclaimer at the end of the Report for greater detail.

Topographic Information

Current USGS Topo (2015)

Quadrangle(s): Clovis, CA

Source: USGS 7.5 Minute Topographic Map

Topographic Information

The previous topographic map(s) are created by seamlessly merging and cutting current USGS topographic data. Below are shaded relief map(s), derived from USGS elevation data to show surrounding topography in further detail.

Topographic information at project property:

Elevation: 351.64 ft
Slope Direction: S

Hydrologic Information

Wetland

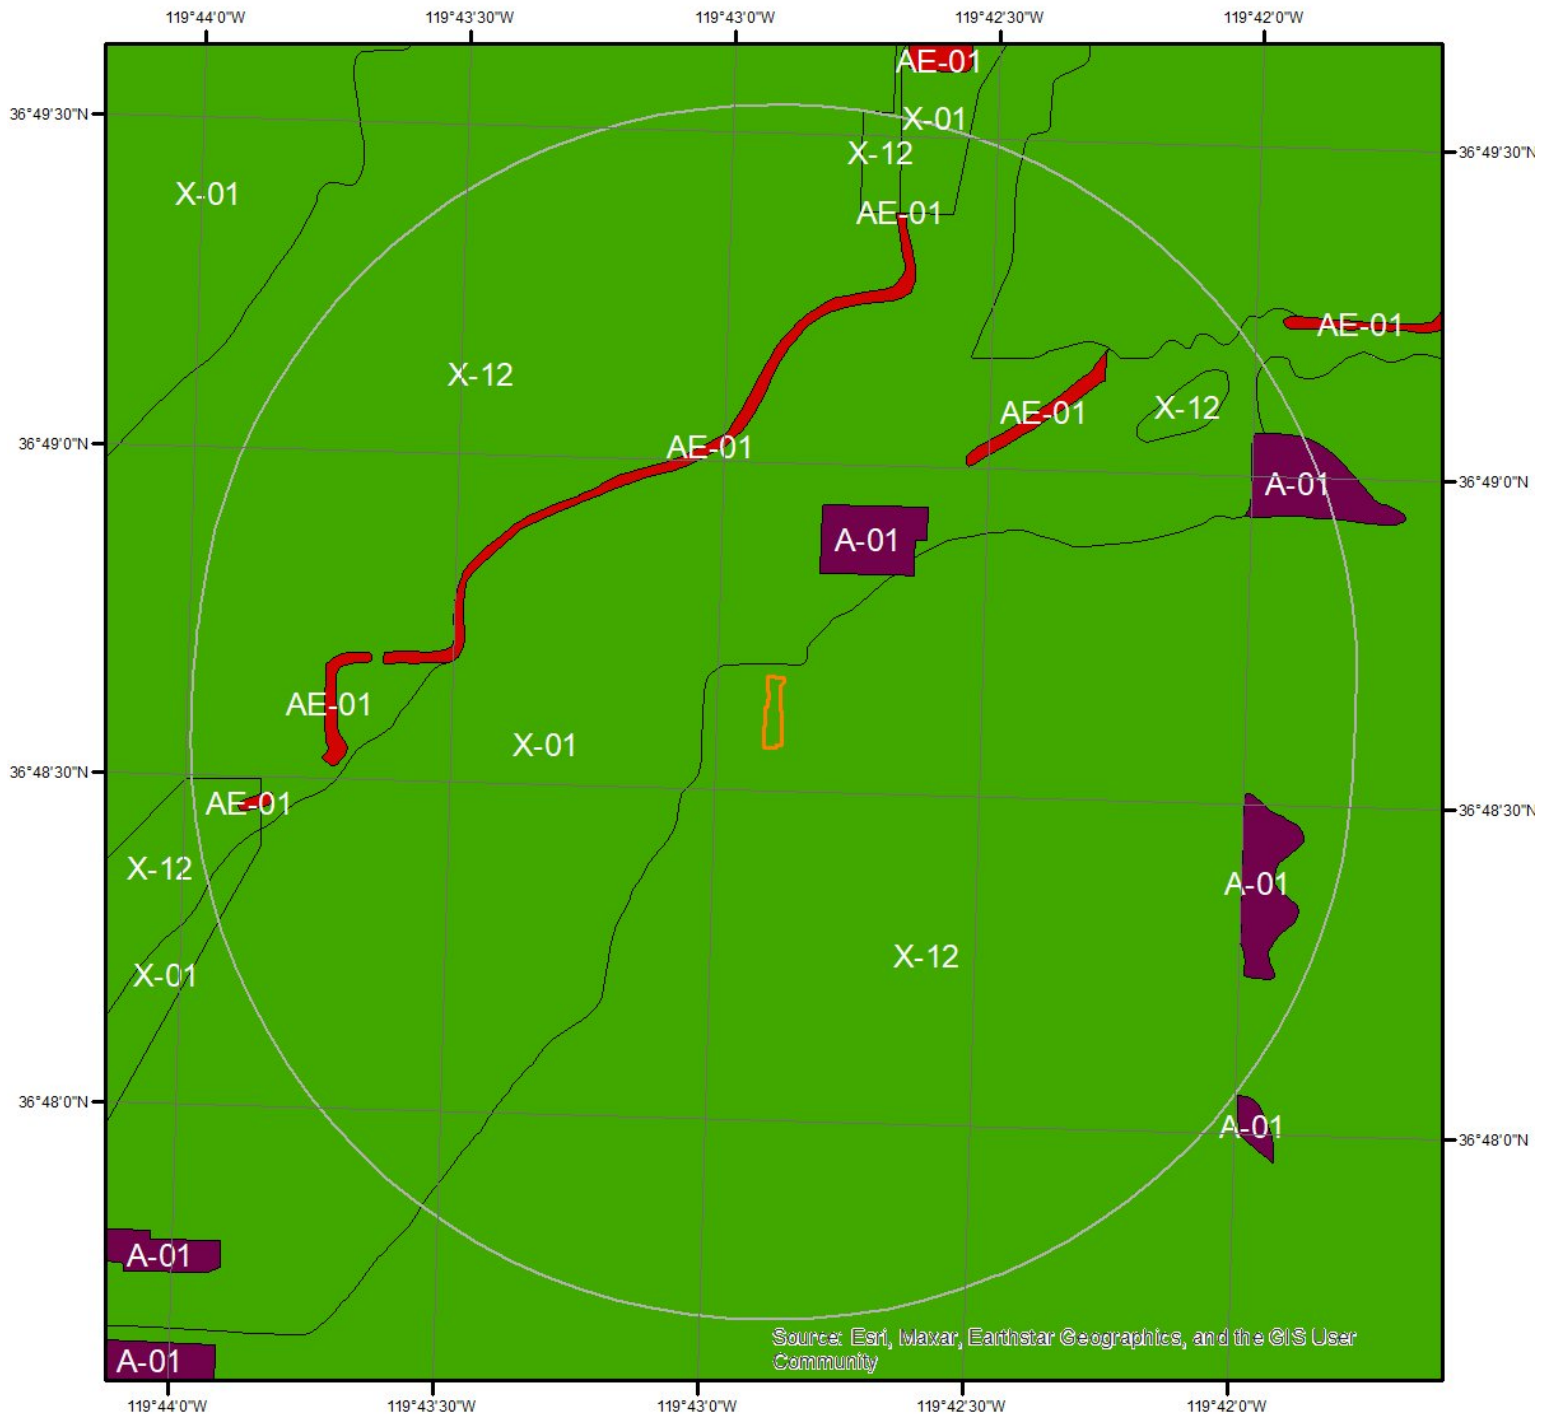

This map shows wetland existence using data from US Fish & Wildlife. Data coverage is shown to the right. Gray indicates no data available in the area.

Geologic Information

Geologic Units

This maps shows geologic units in the area. Please refer to the report for detailed descriptions.

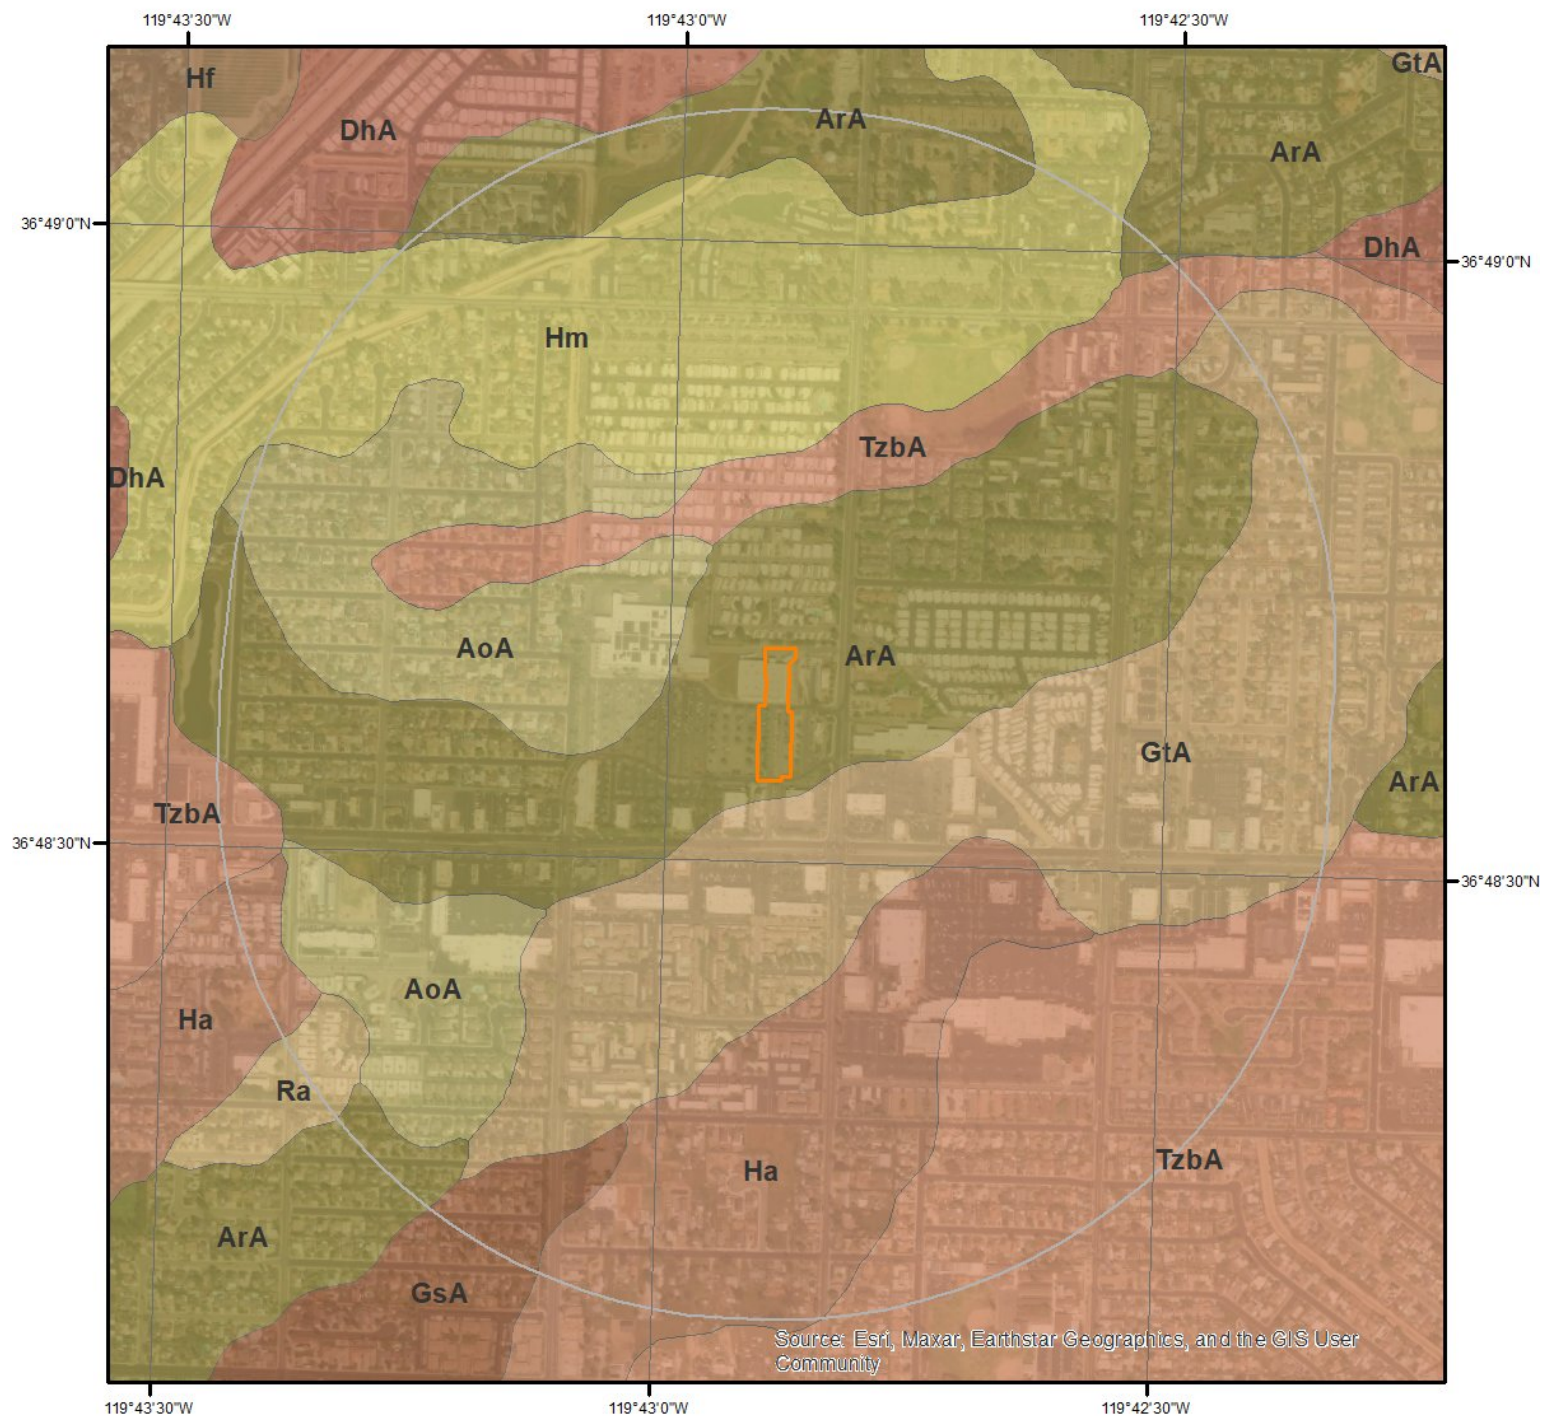

Geologic Information

The previous page shows USGS geology information. Detailed information about each unit is provided below.

Geologic Unit Q

Unit Name:	Quaternary alluvium and marine deposits
Unit Age:	Pliocene to Holocene
Primary Rock Type:	alluvium
Secondary Rock Type:	terrace
Unit Description:	Alluvium, lake, playa, and terrace deposits; unconsolidated and semi-consolidated. Mostly nonmarine, but includes marine deposits near the coast.

Soil Information

SSURGO Soils

This maps shows SSURGO soil units around the target property. Please refer to the report for detailed soil descriptions.

Soil Information

The previous page shows a soil map using SSURGO data from USDA Natural Resources Conservation Service. Detailed information about each unit is provided below.

Map Unit AoA (2.48%)

Map Unit Name:	Atwater loamy sand, 0 to 3 percent slopes, MLRA 17
Bedrock Depth - Min:	null
Watertable Depth - Annual Min:	null
Drainage Class - Dominant:	Well drained
Hydrologic Group - Dominant:	A - Soils in this group have low runoff potential when thoroughly wet. Water is transmitted freely through the soil.

Major components are printed below

Atwater(85%)	
horizon Ap(0cm to 61cm)	Loamy sand
horizon Bt(61cm to 140cm)	Sandy loam
horizon C(140cm to 185cm)	Loamy sand
horizon 2Bq(185cm to 200cm)	Cemented loamy sand

Component Description:

Minor map unit components are excluded from this report.

Map Unit: AoA - Atwater loamy sand, 0 to 3 percent slopes, MLRA 17

Component: Atwater (85%)

The Atwater component makes up 85 percent of the map unit. Slopes are 0 to 3 percent. This component is on dunes on valleys. The parent material consists of eolian deposits derived from alluvium derived from granite. Depth to a root restrictive layer, cemented horizon, is 60 to 79 inches. The natural drainage class is well drained. Water movement in the most restrictive layer is high. Available water to a depth of 60 inches (or restricted depth) is moderate. Shrink-swell potential is low. This soil is not flooded. It is not ponded. There is no zone of water saturation within a depth of 72 inches. Organic matter content in the surface horizon is about 1 percent. Nonirrigated land capability classification is 4s. Irrigated land capability classification is 2s. This soil does not meet hydric criteria. The soil has a maximum sodium adsorption ratio of 2 within 30 inches of the soil surface.

Component: Delhi (5%)

Generated brief soil descriptions are created for major soil components. The Delhi soil is a minor component.

Component: San Joaquin (4%)

Generated brief soil descriptions are created for major soil components. The San Joaquin soil is a minor component.

Component: Rocklin (4%)

Generated brief soil descriptions are created for major soil components. The Rocklin soil is a minor component.

Component: Whitney (2%)

Generated brief soil descriptions are created for major soil components. The Whitney soil is a minor component.

Map Unit ArA (10.57%)

Map Unit Name:	Atwater sandy loam, 0 to 3 percent slopes
Bedrock Depth - Min:	null
Watertable Depth - Annual Min:	null
Drainage Class - Dominant:	Well drained
Hydrologic Group - Dominant:	A - Soils in this group have low runoff potential when thoroughly wet. Water is transmitted freely through the soil.

Major components are printed below

Atwater(85%)

Soil Information

horizon A(0cm to 61cm)	Sandy loam
horizon Bt(61cm to 109cm)	Sandy loam
horizon C(109cm to 152cm)	Loamy sand

Component Description:

Minor map unit components are excluded from this report.

Map Unit: ArA - Atwater sandy loam, 0 to 3 percent slopes

Component: Atwater (85%)

The Atwater component makes up 85 percent of the map unit. Slopes are 0 to 3 percent. This component is on dunes on fan remnants on valleys. The parent material consists of eolian deposits derived from alluvium derived from granite. Depth to a root restrictive layer is greater than 60 inches. The natural drainage class is well drained. Water movement in the most restrictive layer is high. Available water to a depth of 60 inches (or restricted depth) is moderate. Shrink-swell potential is low. This soil is not flooded. It is not ponded. There is no zone of water saturation within a depth of 72 inches. Organic matter content in the surface horizon is about 1 percent. Nonirrigated land capability classification is 4s. Irrigated land capability classification is 2s. This soil does not meet hydric criteria.

Component: Unnamed (12%)

Generated brief soil descriptions are created for major soil components. The Unnamed soil is a minor component.

Component: Delhi (3%)

Generated brief soil descriptions are created for major soil components. The Delhi soil is a minor component.

Map Unit DhA (7.03%)

Map Unit Name:	Delhi loamy sand, 0 to 3 percent slopes, MLRA 17
Bedrock Depth - Min:	null
Watertable Depth - Annual Min:	null
Drainage Class - Dominant:	Somewhat excessively drained
Hydrologic Group - Dominant:	A - Soils in this group have low runoff potential when thoroughly wet. Water is transmitted freely through the soil.

Major components are printed below

Delhi(85%)

horizon A(0cm to 18cm)	Loamy sand
horizon C1(18cm to 64cm)	Loamy sand
horizon C2(64cm to 152cm)	Loamy sand

Component Description:

Minor map unit components are excluded from this report.

Map Unit: DhA - Delhi loamy sand, 0 to 3 percent slopes, MLRA 17

Component: Delhi (85%)

The Delhi component makes up 85 percent of the map unit. Slopes are 0 to 3 percent. This component is on dunes on fan remnants on valleys. The parent material consists of eolian deposits derived from sandy alluvium derived from granite. Depth to a root restrictive layer is greater than 60 inches. The natural drainage class is somewhat excessively drained. Water movement in the most restrictive layer is high. Available water to a depth of 60 inches (or restricted depth) is low. Shrink-swell potential is low. This soil is not flooded. It is not ponded. There is no zone of water saturation within a depth of 72 inches. Organic matter content in the surface horizon is about 1 percent. Nonirrigated land capability classification is 4e. Irrigated land capability classification is 3s. This soil does not meet hydric criteria.

Component: Hanford (6%)

Generated brief soil descriptions are created for major soil components. The Hanford soil is a minor component.

Component: Dello (6%)

Generated brief soil descriptions are created for major soil components. The Dello soil is a minor component.

Component: Grangeville (1%)

Soil Information

Generated brief soil descriptions are created for major soil components. The Grangeville soil is a minor component.

Component: Dinuba (1%)

Generated brief soil descriptions are created for major soil components. The Dinuba soil is a minor component.

Component: Hilmar (1%)

Generated brief soil descriptions are created for major soil components. The Hilmar soil is a minor component.

Map Unit GsA (4.18%)

Map Unit Name:	Greenfield coarse sandy loam, 0 to 3 percent slopes
Bedrock Depth - Min:	null
Watertable Depth - Annual Min:	null
Drainage Class - Dominant:	Well drained
Hydrologic Group - Dominant:	A - Soils in this group have low runoff potential when thoroughly wet. Water is transmitted freely through the soil.

Major components are printed below

Greenfield(85%)

horizon Ap(0cm to 41cm)	Coarse sandy loam
horizon Bt(41cm to 97cm)	Coarse sandy loam
horizon C(97cm to 152cm)	Sandy loam

Component Description:

Minor map unit components are excluded from this report.

Map Unit: GsA - Greenfield coarse sandy loam, 0 to 3 percent slopes

Component: Greenfield (85%)

The Greenfield component makes up 85 percent of the map unit. Slopes are 0 to 3 percent. This component is on alluvial fans on valleys. The parent material consists of alluvium derived from granite. Depth to a root restrictive layer is greater than 60 inches. The natural drainage class is well drained. Water movement in the most restrictive layer is high. Available water to a depth of 60 inches (or restricted depth) is moderate. Shrink-swell potential is low. This soil is not flooded. It is not ponded. There is no zone of water saturation within a depth of 72 inches. Organic matter content in the surface horizon is about 1 percent. Nonirrigated land capability classification is 4c. Irrigated land capability classification is 1 This soil does not meet hydric criteria.

Component: Unnamed (14%)

Generated brief soil descriptions are created for major soil components. The Unnamed soil is a minor component.

Component: Unnamed (1%)

Generated brief soil descriptions are created for major soil components. The Unnamed soil is a minor component.

Map Unit GtA (5.38%)

Map Unit Name:	Greenfield sandy loam, 0 to 3 percent slopes
Bedrock Depth - Min:	null
Watertable Depth - Annual Min:	null
Drainage Class - Dominant:	Well drained
Hydrologic Group - Dominant:	A - Soils in this group have low runoff potential when thoroughly wet. Water is transmitted freely through the soil.

Major components are printed below

Greenfield(85%)

horizon Ap(0cm to 41cm)	Sandy loam
horizon Bt(41cm to 97cm)	Sandy loam
horizon C(97cm to 152cm)	Sandy loam

Component Description:

Soil Information

Minor map unit components are excluded from this report.

Map Unit: GtA - Greenfield sandy loam, 0 to 3 percent slopes

Component: Greenfield (85%)

The Greenfield component makes up 85 percent of the map unit. Slopes are 0 to 3 percent. This component is on alluvial fans on valleys. The parent material consists of alluvium derived from granite. Map Unit: TzbA - Tujunga loamy sand, 0 to 3 percent slopes

Component: Tujunga (85%)

The Tujunga component makes up 85 percent of the map unit. Slopes are 0 to 3 percent. This component is on alluvial fans on valleys. The parent material consists of alluvium derived from granite. Depth to a root restrictive layer is greater than 60 inches. The natural drainage class is somewhat excessively drained. Water movement in the most restrictive layer is high. Available water to a depth of 60 inches (or restricted depth) is low. Shrink-swell potential is low. This soil is occasionally flooded. It is not ponded. There is no zone of water saturation within a depth of 72 inches. Organic matter content in the surface horizon is about 1 percent. Nonirrigated land capability classification is 4s. Irrigated land capability classification is 4s. This soil does not meet hydric criteria.

Component: Unnamed (12%)

Generated brief soil descriptions are created for major soil components. The Unnamed soil is a minor component.

Component: Unnamed (2%)

Generated brief soil descriptions are created for major soil components. The Unnamed soil is a minor component.

Component: Unnamed (1%)

Generated brief soil descriptions are created for major soil components. The Unnamed soil is a minor component.

Radon Information

This section lists any relevant radon information found for the target property.

Federal EPA Radon Zone for *FRESNO* County: **2**

Zone 1: Counties with predicted average indoor radon screening levels greater than 4 pCi/L

Zone 2: Counties with predicted average indoor radon screening levels from 2 to 4 pCi/L

Zone 3: Counties with predicted average indoor radon screening levels less than 2 pCi/L

Federal Area Radon Information for *FRESNO* County

No Measures/Homes:	106
Geometric Mean:	0.8
Arithmetic Mean:	1.3
Median:	0.9
Standard Deviation:	1.3
Maximum:	9.4
% >4 pCi/L:	2
% >20 pCi/L:	0
Notes on Data Table:	TABLE 1. Screening indoor radon data from the EPA/State Residential Radon Survey of California conducted during 1989-90. Data represent 2-7 day charcoal canister measurements from the lowest level of each home tested.

Federal Sources

FEMA National Flood Hazard Layer

FEMA FLOOD

The National Flood Hazard Layer (NFHL) data incorporates Flood Insurance Rate Map (FIRM) databases published by the Federal Emergency Management Agency (FEMA), and any Letters Of Map Revision (LOMRs) that have been issued against those databases since their publication date. The FIRM Database is the digital, geospatial version of the flood hazard information shown on the published paper FIRMs. The FIRM Database depicts flood risk information and supporting data used to develop the risk data. The FIRM Database is derived from Flood Insurance Studies (FISs), previously published FIRMs, flood hazard analyses performed in support of the FISs and FIRMs, and new mapping data, where available.

Indoor Radon Data

INDOOR RADON

Indoor radon measurements tracked by the Environmental Protection Agency(EPA) and the State Residential Radon Survey.

Public Water Systems Violations and Enforcement Data

PWSV

List of drinking water violations and enforcement actions from the Safe Drinking Water Information System (SDWIS) made available by the Drinking Water Protection Division of the US EPA's Office of Groundwater and Drinking Water. Enforcement sensitive actions are not included in the data released by the EPA. Address information provided in SDWIS may correspond either with the physical location of the water system, or with a contact address.

Radon Zone Level

RADON ZONE

Areas showing the level of Radon Zones (level 1, 2 or 3) by county. This data is maintained by the Environmental Protection Agency (EPA).

Safe Drinking Water Information System (SDWIS)

SDWIS

The Safe Drinking Water Information System (SDWIS) contains information about public water systems as reported to US Environmental Protection Agency (EPA) by the states. Addresses may correspond with the location of the water system, or with a contact address.

Soil Survey Geographic database

SSURGO

The Soil Survey Geographic database (SSURGO) contains information about soil as collected by the National Cooperative Soil Survey at the Natural Resources Conservation Service (NRCS). Soil maps outline areas called map units. The map units are linked to soil properties in a database. Each map unit may contain one to three major components and some minor components.

U.S. Fish & Wildlife Service Wetland Data

US WETLAND

The U.S. Fish & Wildlife Service Wetland layer represents the approximate location and type of wetlands and deepwater habitats in the United States.

USGS Current Topo

US TOPO

US Topo topographic maps are produced by the National Geospatial Program of the U.S. Geological Survey (USGS). The project was launched in late 2009, and the term "US Topo" refers specifically to quadrangle topographic maps published in 2009 and later.

USGS Geology

US GEOLOGY

Seamless maps depicting geological information provided by the United States Geological Survey (USGS).

USGS National Water Information System

FED USGS

The U.S. Geological Survey (USGS)'s National Water Information System (NWIS) is the nation's principal repository of water resources data. This database includes comprehensive information of well-construction details, time-series data for gage height, streamflow, groundwater level, and precipitation and water use data.

Wells from NWIS

FED USGS

The U.S. Geological Survey's National Water Information System (NWIS) is the nation's principal repository of water resources data. The NWIS includes comprehensive information of well-construction details, time-series data for gage height, streamflow, groundwater level, and precipitation and water use data. This NWIS dataset contains select Site Types from the overall NWIS Sites data, limited to the following Group Site Types only: Groundwater Group Site Types: Well, Collector or Ranney type well, Hyporheic-zone well,

Appendix

Interconnected Wells, Multiple wells; Spring Group Site Type: Spring; and Other Group Site Types: Aggregate groundwater use, Cistern.

State Sources

Oil and Gas Wells

OGW

A list of Oil and Gas well locations. This is provided by California's Department of Conservation Division of Oil, Gas and Geothermal Resources.

Periodic Groundwater Level Measurement Locations

MONITOR WELLS

Locations of groundwater level monitoring wells in the Department of Water Resources (DWR)'s Periodic Groundwater Levels dataset. The DWR Periodic Groundwater Levels dataset contains seasonal and long-term groundwater level measurements collected by the Department of Water Resources and cooperating agencies.

Well Completion Reports

WATER WELLS

List of wells from the Well Completion Reports data made available by the California Department of Water Resources' (DWR) Online System for Well Completion Reports (OSWCR). Please note that the majority of well completion reports have been spatially registered to the center of the 1x1 mile Public Land Survey System section that the well is located in.

Liability Notice

Reliance on information in Report: The Physical Setting Report (PSR) DOES NOT replace a full Phase I Environmental Site Assessment but is solely intended to be used as a review of environmental databases and physical characteristics for the site or adjacent properties.

License for use of information in Report: No page of this report can be used without this cover page, this notice and the project property identifier. The information in Report(s) may not be modified or re-sold.

Your Liability for misuse: Using this Service and/or its reports in a manner contrary to this Notice or your agreement will be in breach of copyright and contract and ERIS may obtain damages for such mis-use, including damages caused to third parties, and gives ERIS the right to terminate your account, rescind your license to any previous reports and to bar you from future use of the Service.

No warranty of Accuracy or Liability for ERIS: The information contained in this report has been produced by ERIS Information Inc. ("ERIS") using various sources of information, including information provided by Federal and State government departments. The report applies only to the address and up to the date specified on the cover of this report, and any alterations or deviation from this description will require a new report. This report and the data contained herein does not purport to be and does not constitute a guarantee of the accuracy of the information contained herein and does not constitute a legal opinion nor medical advice. Although ERIS has endeavored to present you with information that is accurate, ERIS Information Inc. disclaims, any and all liability for any errors, omissions, or inaccuracies in such information and data, whether attributable to inadvertence, negligence or otherwise, and for any consequences arising therefrom. Liability on the part of ERIS is limited to the monetary value paid for this report.

Trademark and Copyright: You may not use the ERIS trademarks or attribute any work to ERIS other than as outlined above. This Service and Report(s) are protected by copyright owned by ERIS Information Inc. Copyright in data used in the Service or Report(s) (the "Data") is owned by ERIS or its licensors. The Service, Report(s) and Data may not be copied or reproduced in whole or in any substantial part without prior written consent of ERIS.

Consultant Resumes

Timothy Smith

Environmental Professional

Education

B.Sc., Geology, California State University, Fullerton, Fullerton, CA

Summary of Experience

Mr. Smith serves as an Environmental Professional at CREtelligent, bringing over 14 years' experience in due diligence and environmental consulting. Mr. Smith's responsibilities include report reviews, project management and oversight, field health and safety, and staff training. He has extensive due diligence and environmental consulting experience and has conducted numerous environmental site investigations, ranging from limited soil vapor investigations to multi-year remediation and monitoring projects.

Mr. Smith has significant experience interacting with clients, contractors, and public entities in the pursuit of mutually beneficial outcomes for a variety of properties. He has performed field activities including but not limited to the following: soil, groundwater, soil vapor, and air sampling and monitoring; soil logging; site reconnaissance, ranging from urban to remote sites; and asbestos and lead sampling.

Mr. Smith is responsible for ensuring consistency, accuracy, and quality of due diligence services, and for providing senior review expertise to ensure conformance with most recent American Society of Testing and Materials (ASTM) standards and U.S. Environmental Protection Agency's (EPA's) All Appropriate Inquiry (AAI) for Phase I Environmental Site Assessments (ESA), Environmental Transaction Screens (ETS), Record Search with Risk Assessments (RSRA), and other environmental services.

Project Experience

Due Diligence Environmental Site Assessments, Western U.S., 2007-2021:

Mr. Smith has completed hundreds of Phase I Environmental Site Assessments (ESAs) as part of the due diligence process for property transactions across the western United States. Property types assessed include governmental, commercial, industrial, residential, gas station sites, automotive service facilities, dry cleaners, agricultural land, and rural land. He has completed site assessments for a wide range of clients with varying requirements, including commercial real estate, telecom, and industrial needs. He is well versed with varying regulatory agencies, municipal and governmental entities, and geographic locales throughout the western U. S. He is fully conversant with ASTM's E1527-13 and -21, which incorporate EPA's All Appropriate Inquiry standard for Phase I ESAs.

Regional Location

Greater Sacramento region, California

Timothy Smith

Environmental Professional

Subsurface and Limited Subsurface Investigations, California, 2007-2021:

Mr. Smith has worked extensively on investigation, characterization, and remediation at sites throughout northern and southern California. Site investigations have ranged from multi-family residential, commercial, and industrial properties, and have included dry-cleaners, automotive repair facilities, gas stations, car wash facilities, and day care facilities. Investigations have included soil, groundwater, and soil vapor collection and characterization, underground storage tank (UST) removal and/or replacement, bioremediation, and groundwater and soil vapor treatment.

Geotechnical Investigations, Southern California, 2007-2008:

Mr. Smith previously worked on soil characterization investigations for residential and commercial development. Projects included geotechnical soil borings at current and potential development sites, soil data collection, compaction testing, and contamination analysis. Sites ranged from remote vacant land to previously developed urban locations, with potential development including single- and multi-family residences, commercial development, and municipal use.

Michelle Manning

Environmental Project Manager

Education

B.S., Environmental Policy Analysis and Planning, University of California, Davis

Project Experience

Due Diligence Environmental Site Assessments:

Working with developers, investors, and lending institutions, Ms. Manning assists in completing environmental site assessments for property transactions as part of the due diligence process required by the Comprehensive Environmental Response, Compensation, and Liability Act of 1980. Property types assessed include commercial, industrial, multi-family residential, self-storage facilities, gas stations/automotive service, dry cleaners and hotels.

Field Technician:

Ms. Manning has served as the Project Manager on multiple ES and ESA reports of multi-tenant residential, commercial and industrial properties throughout the country.

Lucy Mulvey

Environmental Professional

Education

B.S., Geology, University of Minnesota, Minneapolis, MN

Summary of Experience

Ms. Mulvey serves as the Director of Environmental Services at CREtelligent, bringing over 15 years' experience in due diligence, and environmental consulting industries. Ms. Mulvey's responsibilities include project management and oversight, employee training, staff supervision, client management, health and safety, and report reviews. Ms. Mulvey has extensive due diligence and environmental consulting experience and has served as project manager for multiple environmental site investigations, soil gas and groundwater source investigations varying in size from a limited subsurface investigation into multi-million-dollar subsurface contamination and source investigations. In addition, she has significant experience interacting with customers, government officials, and contractors. She has worked to create and manage Storm Water Pollution Prevention plans, annual compliance reports, groundwater monitoring reports, SPCC plans, and various other technical reports.

Ms. Mulvey has performed field activities including but not limited to soil sampling, water sampling, air sampling and monitoring, drill rig supervision and logging, site reconnaissance, storm water conveyance structures, and Best Management Practices (BMP) facility inspections.

Mr. Mulvey is responsible for ensuring consistency and quality of due diligence services, providing senior review expertise to ensure conformance with most recent American Society of Testing and Materials (ASTM) standards and U.S. Environmental Protection Agency's (EPA's) All Appropriate Inquiry (AAI) for Phase I Environmental Site Assessments (ESA), Transaction Screen Assessments (TSA), Record Search with Risk Assessments (RSRA), and other environmental services.

Project Experience

Due Diligence Environmental Site Assessments:

Working with investors, lending institutions, property owners, local municipalities and State governments, Ms. Mulvey has completed hundreds of Phase I ESAs, Transaction Screen Assessments, and Record Search with Risk Assessments (RSRA)/EnviroScreens for property transactions as part of the due diligence process across the nation. This work was performed as part of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980. Property types assessed include commercial, industrial, forested lands, government facilities, multi-family residential, self-storage facilities, gas stations, automotive service, dry cleaners, day cares and hotels.

Environmental Professional

California Department of General Services, PM Branch, Site Cleanup, Groundwater PCE Plume, South Tahoe, CA:

Deputy Project Manager for the investigation and regional groundwater characterization of a large, dissolved tetrachloroethylene (PCE) plume. Tasks included developing Health and Safety Plan updates, permit preparations, management of AECOM field team and subcontractors, and oversight of all aspects of field work and documentation associated with a data gap investigation consisting of the installation of investigation boreholes utilizing sonic and cone penetration test (CPT) drilling technologies. Provided support with data evaluation including vertical conduit assessment, sensitive receptors evaluation, and development of regional lithological model.

California Department of General Services, PM Branch, PCE Site Investigation and Remediation Design, Auburn, CA:

Deputy Project Manager for a tetrachloroethylene (PCE) source area investigation. Tasks include, compiling soil, soil vapor and water historical investigation data, work plan development, writing the Health and Safety Plan, contractor management, and fieldwork lead for passive gas and active soil gas sampling.

On-Call Remediation Support, Sacramento, CA:

Conducted Phase I Environmental Site Assessments (ESA) and other studies under a municipal providers on-call contract. Work completed included Installation of well network of soil vapor extraction and vapor monitoring wells, conducted soil investigations on lands planned for development by the client, managed the installation of 44 soil vapor monitoring wells for soil vapor characterization of a 20-acre former industrial corporation yard, and conducting multiple phase I and phase II soil investigations for properties being purchased or redeveloped by the client. Tasks included work plan development, Health and Safety Plan development, permit preparation, subcontractor coordination and management, client communication, providing documentation for all field work, and overseeing field team.

California Department of Toxic Substances Control, Argonaut Mine Site Structural Retrofit, Jackson, Amador County, CA:

Managed a crew of field personnel for perimeter air monitoring activities during construction. Managed air monitoring equipment, collected data, and communicated with on-site construction personnel to ensure safety standards were met.

California Department of General Services, PM Branch, Various locations, CA:

Conducted multiple Phase I Environmental Site Assessments on a multi-use commercial, industrial and vacant lands owned by California Department of General Services.

Sacramento County Community Development Department, Power Inn Road Widening Phase I Initial Site Assessment, Sacramento, CA:

Conducted a Phase I Initial Site Assessments with limited soil investigation in compliance with Caltrans Local Assistance Procedures Manual for multiple road widening projects within Sacramento County including Power Inn Road, and Folsom Road.

Inspection Report

CREtelligent ESA FORM

Project Information

Date of Inspection	01-26-2023
CRE Project Number	22K10-61029-304
Subject Property Location/Address	239 W. Shaw Ave., Clovis, CA 93612
Building Count	1
Inspection Conducted By	Janet Omoregie
Property Escort	Adam
Property Escort Title / Relationship to Property	Assistant store manager
Any discrepancies with property boundary?	None noted
List any areas that were not inspected or accessible	Three of the dressing room was inaccessible. And the conference room across from the employees/managers office was also in accessible.

Site Contact Interview

Site Contact (First and Last Name) and Title	Per tax records (Simon– Oakley Town Center LLC
Site Owner (First and Last Name) and Contact Info (if available)	Per tax records (Simon– Oakley Town Center LLC
Length of Current Ownership or Length of Time Associated with the Property?	Per tax records property was transferred on 9/19/2023
Last Improvement or Structural Changes Made to the Property (include year if available)	N/A
Past Uses (include years if known)	N/A
Current Use (how many years as current use)	N/A
Proposed Future Development/Land Use	N/A
Site Map, Emergency Evacuation Map, and/or Rent Roll	N/A
Any previous environmental studies or issues associated with the address (obtain copies and list below)?	N/A
Any permits associated with the site's operations (including but not limited to solid waste disposal, hazardous waste disposal, wastewater discharge, NPDES, or underground injection and list below)?	N/A
Any environmental citations, claims, complaints, violations or notices of non-compliance (list below)?	N/A

CREtelligent ESA FORM

Any documented or undocumented spills or chemical releases (list below)?	N/A
Sewage Disposal System - City or on-site. If on-site, please describe	City of Clovis
Who is the current water supplier provider?	City of Clovis
Who is the current Electricity / Natural Gas provider?	PG&E
Additional Information Obtained During Interview	No interview was performed. Client did no returns phone calls.

Photo Requirements

Photo orientation:	Please take photos in landscape orientation ONLY.
Photos to be placed in the following order:	<ol style="list-style-type: none"> 1. Exterior building photos starting with street view then in clockwise direction from Street photo (if street view is taken photo on southside facing north, then proceed with west (facing east), north (facing south), and lastly east (facing west) views). 2. Any item of concern exterior- vent or fill pipes, monitoring wells, ASTs, water wells, exterior drains (any drainage from areas of concern? i.e. An auto shop where they wash vehicles and the wash water flows to the catch basin?)- if there is an item of concern (ASTM checklist), take a wide view shot to show surrounding area and a close up view. If there are tags to show model/type/age obtain photo of the tag. 3. If no Item of concerns in the exterior and there is land in addition to buildings, please get one or two representative photos of the property and one photo of any storm drains present on the property. 4. Interior photos- limit to general representative photos of interior, and items of potential environmental concern. <ol style="list-style-type: none"> A. Drains. If internal drains do not have staining around them and are not in an area of high risk (within a auto shop) take one representative photo then indicate in caption total number of internal drains + locations and indicate that no environmental concerns were observed. If they are in an area where harmful chemicals could have been poured down them, take a photo and indicate where its located. B. Engine rooms- look for drains or other pathways to subsurface. C. Chemical storage- take photos of chemicals and provide estimate to quantities. If there is a chemical closet (or flammables locker), request the site contact to open it so you can take a photo of chemicals within it. 5. Adjacent properties- N, S, E, W- two max for each adjacent property unless there is a specific close up showing an item of environmental concern (eg. AST or a pile of scrap metal along the boundary fence to the subject site). One photo of view from the subject site, and one photo taken from the road.
Photo captioning requirements:	<p>All photos must include captions that include the following:</p> <ol style="list-style-type: none"> 1. What the image is showing (i.e., Site building) 2. The location on the property 3. The direction the photo is facing 4. If there is an environmental concern state what it is. 5. If its an adjacent property photo start with "Adjacent property to the (list direction) of the subject property" <p>DO NOT make speculations in the captions. Just report the facts. Example 1- Front of building from the property entrance facing south. Example 2- SW interior office space facing north. Example 3- Waste oil storage (250 gallon double walled AST) inside the main shop on the northern wall, photo facing north. Example 4- Interior shop drain (1 of 3, located in the western bay) facing north. Significant staining is visible on the cracked concrete surrounding the drain.</p>

CREtelligent ESA FORM

General Notes:	<p>Apart from one of two interior photos indicating the general features, only take photos of items of concern. i.e., Comment if there are floor drains, but none in areas of environmental concern. Example: Bathroom drains are not a concern; they can be noted but no photos are required. Photos of drains in auto shops are required and notes on evidence of staining is a must.</p> <p>The inspector should always ask the site contact, "where does this drain flow to?" "is there an oil/water separator that this (these) drains flow to?"</p> <p>If soil staining is observed, scrape the upper 2 inches of surface soil away with the sole of the shoe, stick, or shovel to see if staining extends past the first few inches, this indicates to the EP if it's a significant issue or just minor surface spills.</p> <p>If there is a large amount of chemicals, please obtain names (or photos of labels) of the chemicals and estimate total quantity.</p> <p>If there is an AST observed, please ask the property manager for details as to when it was installed, what it contains, how often it is re-filled, is it double walled with leak detection.</p> <p>If an ASTM checklist item is present (list reference to the table within FF) please include information regarding the item that includes, where on the property it is located, and the condition (visible damage, staining etc.).</p>
Acknowledgment	<p>You agree to photos requirements.</p> <p>Thank You</p>

Did any of the adjacent properties pose an environmental concern to the subject site? If yes, please note below.	None noted

ASTM Checklist Items (mark "Yes" if present)

Hazardous Substances and Petroleum Products in Connection with Current Business Type	No
List approximate number of containers and a general description of the contents, capacity, types of containers, and the storage conditions.	

CREtelligent ESA FORM

Hazardous Substance and Petroleum Product Containers Not in Connection with Current Business Type	No
List approximate number of containers and a general description of the contents, capacity, types of containers, and the storage conditions.	
Storage Tanks - (e.g., aboveground storage tank (AST), underground storage tank (UST), vent pipes, fill pipes or accessways)	No
List tank type (AST and/or UST), tank construction (for example, single-wall steel, fiberglass, etc.), contents, capacity, and age.	
Odors - Strong, Pungent or Noxious	No
List the source of the odor.	
Standing Surface Water and Pools or Sumps Containing Liquids Likely to be Hazardous Substances or Petroleum Products	No
List the locations and substance observed.	
Drums, Totes, and Intermediate Bulk Containers	No
List the approximate number of containers and a general description of the contents, capacity, types of containers, and the storage conditions.	
Unidentified Substance Containers	No
List the approximate number of containers and a general description of the contents, capacity, types of containers, and the storage conditions.	
PCB-Containing Items	Yes
List location and condition of any electrical or inground hydraulic equipment and pole-mounted transformers and capacitors. Excluding forklifts.	Transformer boxes noted at the back of the subject property .
Heating/Cooling	Yes

CREtelligent ESA FORM

List the means of heating and cooling the building(s) on the subject property, including the fuel source (example: natural gas furnace, heating oil fueled boiler, electric baseboards, municipally supplied steam, etc.).	Air conditioning system on roof unable to see from sidewalk area
Interior Stains or Corrosion on Floors, Walls, or Ceilings (except for staining from water).	No
List any staining or corrosion source, the location, and approximate size.	Stain noted on the floor in dressing room area that were made accessible; slight stain noted at ceiling in employees kitchen/locker area
Exterior Stained Soil or Pavement	Yes
List any staining source (if possible), the location, and approximate size.	Stains noted in parking lot area. See pictures.
Drains, Sumps, and Wastewater (Oil/Water Separators).	Yes
List drains or sumps that could of been exposed to hazardous materials, the location, and where they drain to. Exclude drains located in bathrooms unless staining is observed.	Drainage noted in docking ramp area for trailer. Please see pictures.
Wastewater or other liquid (including stormwater) discharged from or to the subject property. Any stormwater containment structures? List condition of surface drains and where they drain to.	
Pits, Ponds, or Lagoons	No
List location.	
Stressed Vegetation (other than insufficient water)	No
List any staining source (if possible), the location, and approximate size.	
Solid Waste	No
Areas that are apparently graded by non-natural causes (or filled with fill of unknown origin) suggesting trash, construction debris, demolition debris, or other solid waste disposal; and mounds or depressions suggesting trash or other solid waste disposal. List location.	
Wells	No
List dry wells, irrigation wells, injection wells, monitoring wells, abandoned wells, or other wells.	
Septic Systems or Cesspools	No

CREtelligent ESA FORM

Septic tank systems are a type of simple onsite sewage facility and cesspools are open ponds for the storage of liquid waste.. List location.	
Direction of Slope (land slope)	Properly sloped towards the north side, as well as to the east and south
Where Does Subject Property Drain To? (ie. sewer, curbside, stormwater)	Store drain noted in the back of property to the north

Field Notes

Use this section for any additional notes and/or observations not covered by the ASTM checklist items.
